4C Strategies appoints new 4C Nordics Managing Director

4C Strategies is delighted to announce the appointment of Josefine Rosén as its new Managing Director (MD) of 4C Nordics. She will take over the role from the outgoing MD, Mikael Grape, who was recently given responsibility to lead the expansion within the public and private sector in North America.

Josefine Rosén has been with 4C Nordic since 2010, when she joined the company as a Consultant after graduating from the Stockholm School of Economics. Since then, she has risen through the ranks of the company, becoming a Senior Consultant, Line Manager and, most recently, Operations Director where she had overall responsibility for the delivery of products and services in the Nordics.

Talking about the new role, Josefine says, "I'm thrilled to have this opportunity and look forward to taking the company to the next level of its exciting journey. My experience over the past 13 years will prove vital in steering the organization in the right direction as we grow our operations in the Nordics. With our Exonaut software and expert services, we are ideally positioned to support organizations in the defence, public and corporate sectors throughout the Nordics.

"It's always pleasing to see talented people thrive in your organization," says Magnus Bergqvist, Group CEO 4C Strategies. Josefine has forged a fantastic career path since she joined us and I look forward to working more closely with her in this new role. I expect the Nordic organization to greatly benefit from her stewardship as we continue to expand."

As well as leading the Nordic organization, Josefine will also join the Group Management Team. She will officially start in the role of Managing Director of 4C Nordics on 1 August 2023.
