

Paxman publishes newsletter in which CEO Richard Paxman answers shareholders' questions following the year-end report

Today, Paxman publishes the March issue of its newsletter aimed at shareholders, investors and other interested parties.

In this issue, CEO Richard Paxman answers shareholders' questions on the current operations of the company and its potential, as well as the content in the year-end report. Some of the topics covered are Paxman's work to achieve national cost coverage in the United States and the importance of the new CPT codes for scalp cooling, estimated life span for installed systems, and how high the utilisation rate is in the US market.

The newsletter also includes information on strong activity in the United States as well as in the UK and internationally. Activity in the US during March included installation of 10 systems for Dana Farber Cancer Institute at Chestnut Hill, Massachusetts, and internationally the company delivered systems to markets including Brazil, Bulgaria, Israel and the Netherlands.

About Us

The Paxman Scalp Cooling System has been developed by the Paxman family to reduce hair loss in breast cancer patients undergoing chemotherapy. The concept behind the system came when the mother of four, Sue Paxman, experienced first-hand the trauma of chemotherapy-induced hair loss. With close to 3,500 systems delivered in to hospitals, clinics and treatment centres around the world, PAXMAN is the leading supplier of Scalp Cooling technology. PAXMAN's scalp-cooling cap is made from lightweight, biocompatible silicone that is soft and flexible, providing a snug yet comfortable fit during treatment. PAXMAN AB (publ) has its headquarters in Karlshamn (Sweden), with subsidiaries in Huddersfield (UK) and Houston, Texas (US).

The PAXMAN share is listed on Nasdaq First North Growth Market. FNCA Sweden AB is the company's Certified Adviser and can be contacted via info@fnca.se and +46 (0)8 528 003 99.
