## Financial guidance for 2022

Revenio Group's exchange rate-adjusted net sales are estimated to grow strongly from the previous year and profitability, excluding non-recurring items, is estimated to remain at a good level.

## President and CEO Jouni Toijala comments on the third quarter of 2022:

"As we had expected, sales performance in the third quarter was very strong in all of our key markets. Our net sales grew by 24.6%, supported by exchange rates, and our operating profit increased by 28.9%. Moreover, profitability and cash flow were strong. During the quarter, we closed a sizeable deal related to a multinational clinical research trial.

The demand for both our product groups continued at a high level. In particular Australia, Japan, Germany, India and Korea were very strong in terms of sales during the period. Sales to the United States also continued on a strong growth projection. The sales of DRSplus, the Eidon product family and the intraocular pressure measurement devices have developed extremely well. iCare HOME2 has received excellent customer feedback, praising the product for its unparalleled usability and durability. During April, we introduced the iCare ILLUME screening solution, which utilizes artificial intelligence in the screening of diabetic retinopathy. iCare ILLUME has been presented in numerous international events during the review period, attracting lots of interest. The solution will be launched in Australia at the end of October. In Europe we, together with our distributors in selected markets, are launching iCare ILLUME's sales activities and customer pilots.

Sustainability is a key part of our strategy, and the KPIs related to it form a part of the short-term incentive program of our entire Leadership Team. We support the UN Sustainable Development Goals 2030, and our sustainability program is built strongly on the value we create for our stakeholders, the society and the environment. During the review period, we implemented an independent sustainability assessment of our Finnish operations (Icare Finland) and achieved the Silver Level status putting us on the top quartile compared to the reference group. We intend to extend these audits to all our locations in the next few years. Furthermore, we started the assessment of the net impact of Revenio's sustainability measures and the Group's business on the society using a net impact assessment model developed by an independent auditor. Our net impact profile based on artificial intelligence and scientific research shows that Revenio is a company with a strong positive net impact. We will be also reporting these results and our sustainability program in more detail in our sustainability report for 2022, which will be published next spring.

The availability and price of electronic components in the global market continued to be challenging but this, however, has not had a significant impact on our ability to make deliveries. We have been able to cover the increased component prices in our customer pricing. We have attempted to prepare for the case that these global challenges will continue at least until the second quarter of 2023.

After the review period in October, we received a certificate for Icare Finland Oy's intraocular pressure measurement devices, including the software, in accordance with the new European medical device regulation MDR (Medical Device Regulation). I am really proud of our organization, which received certification well before the end of the 2024 transition period set by the EU Commission.

Visibility into the coming quarters remain challenging due to geopolitical tensions and the comprehensive changes in European security landscape. The possible slowdown of the economy and the increasing interest level makes the market more turbulent. We are monitoring the situation actively to ensure our sales and our ability to make deliveries even during these times.

I wish to thank our personnel for, once again, achieving outstanding performance through its competence and engagement to our shared objectives.”

## The effects of the war in Ukraine on Revenio

The security situation in Europe has changed drastically since Russia invasion of Ukraine. Revenio stopped all its business in Russia and Belarus in the first quarter of the year. Revenio's sales in Russia have been limited prior to the war, accounting for less than two per cent of net sales.

## Strategy

The cornerstones of Revenio's strategy are:

1. Focus fully on the eye care market
2. Improve the quality of clinical diagnostics with targeted product innovations
3. Transform clinical care pathways with eye care focused software solutions
4. Continue to develop stronger distribution and build on iCare brand awareness and client experience
5. Continue strong profitable growth

## INTERIM REPORT JANUARY 1–SEPTEMBER 30, 2022, TABLES

### Accounting policies applied in the preparation of the Interim report

This interim report is not prepared in accordance with IAS 34. Revenio Group adheres to half-year reporting in accordance with the Securities Markets Act and, for the first three and nine months of the year, publishes interim reports to present key information on the Group's financial performance. The financial figures presented in this interim report are unaudited. The financial statement bulletin and the interim report for 1–6/2022 are drawn up in accordance with IAS 34 Interim Financial Reporting.

This report has been drawn up in accordance with the same principles as the financial statements for 2021, with the exception of the following amendments to the existing standards, which the Group has applied as of January 1, 2022:

Amendments made to IFRS 3, IAS 16, and IAS 37 and yearly improvements 2018-2020.

In the management's estimate, the adoption of the above-mentioned standards does not have a material impact on the Group's financial statements.

### Alternative growth indicators used in financial reporting

Revenio has adopted the guidelines of the European Securities and Market Authority (ESMA) on Alternative Performance Measures. In addition to the IFRS-based key figures, the company will publish certain other generally used key figures that may, as a rule, be derived from the income statement and balance sheet. The calculation of these figures is presented below. According to the company's view, these key figures supplement the income statement and balance sheet, providing a better picture of the company's financial performance and position.

Revenio Group's net sales are strongly affected by fluctuations in the exchange rate between the euro and the US dollar. As an alternative growth indicator, the company also presents net sales with the exchange rate effect eliminated.

<b>Alternative growth indicator (EUR thousand)</b>	<b>1-9/2022</b>
Reported net sales	68,718
Effect of exchange rates on net sales	5,400
Net sales adjusted by the effect of exchange rates	63,318
Growth in net sales, adjusted by the effect of exchange rates	16.0%
Reported net sales growth	24.9%
Difference, % points	-8.9%

### Alternative profitability indicator EBITDA (EUR thousand)

EBITDA = Operating profit + depreciation + impairment

As an alternative growth indicator, the company also presents profitability as an operating margin (EBITDA) key figure.

<b>Alternative profitability indicator EBITDA (EUR thousand)</b>	<b>1-9/2022</b>	<b>1-9/2021</b>	<b>1-12/2021</b>
