

# The contract for the delivery of MobiMed to Region Norrbotten has now been signed

**On March 25, 2024, Ortivus was awarded a contract to deliver its MobiMed ePR system to Region Norrbotten's ambulance operations. The contract, valued at approximately 10.5 MSEK, has now been officially signed by both parties.**

Contract has been signed between Ortivus and Region Norrbotten for the delivery of MobiMed ePR to all the region's ambulance vehicles. The contract duration is five years, with the possibility of annual extensions for up to five years. Estimated order value is 6.0 MSEK for the initial period, and an additional 4.5 MSEK for the entire extension period.

The contract also includes options worth an additional 8.0 MSEK, leading to a total estimated order value of 18.5 MSEK. The agreement encompasses options for MobiMed enRoute and MobiMed FleetCtrl, solutions available for ordering by the region.

Region Norrbotten has been Ortivus' customer for many years, using MobiMed Monitor. The new contract covers MobiMed ePR, electronic patient record including system integrations. Ortivus currently supply MobiMed to 16 out of Sweden's 21 regions.

*"We are delighted to once again have earned the trust of Region Norrbotten, and that the contract has been signed. We eagerly anticipate beginning the implementation project and look forward to continuing our good collaboration with the region.",* says Stefan Ekblom, Nordic Sales Manager at Ortivus.

## About Ortivus

---

Ortivus develops and commercialises MobiMed, e-health and medical technology solutions for a safer and more efficient healthcare. The company was founded in 1985 and is today a leading provider of mobile digital solutions for prehospital care, worldwide. Ortivus' innovations are based on in-depth expertise in cardiology as well as decades of development together with users and customers. The company's headquarters are located in Danderyd, Stockholm. The company has, since 1998, a wholly owned subsidiary based in the United Kingdom and since 2022, a wholly owned subsidiary based in Denmark.

MobiMed is a modular platform that connects and enable real-time information sharing throughout the prehospital care chain. It is currently used by over 12,000 paramedics in over 2,700 emergency vehicles. The platform, MobiMed, consists of several product modules that are completely integrated but can also be used stand-alone. MobiMed comprises four main solutions: MobiMed Monitor, that measures, monitors and shares patients' vital parameters and ECG in real-time, MobiMed ePR, - an electronic patient record for decision support, collection of patient data and clinical documentation, MobiMed enRoute, - a tool for navigation and case management, and MobiMed Life - a range of stand-alone defibrillators.

MobiMed saves vital seconds and enable healthcare professionals make the right decisions in critical situations. MobiMed also contributes to improved quality of care and saved resources.

Ortivus Class A and Class B shares are listed on the NASDAQ Stockholm Small Cap list.
