

## COMPANY ANNOUNCEMENT

19 December 2024

No. 12-2024 – Inside information

### ViroGates announces financial guidance for 2025

**BIRKERØD, DENMARK**—ViroGates A/S (“ViroGates” or the “Company”), a medical technology company developing blood tests for measuring the level of inflammation in individuals in health clinics and hospitals, announces its financial guidance for 2025.

ViroGates expects full-year revenue between DKK 5 and 7 million and an EBIT of DKK -8 to -11 million in 2025. Due to the strategic transition that ViroGates is currently undergoing, and the related uncertainty, ViroGates continues to pause its guidance to the market on becoming cash flow positive.

**Jakob Knudsen, CEO of ViroGates, says:** *“We have taken the first steps in transitioning to cater more to the health and longevity segment. While we are excited about that journey, where we truly believe suPAR has a large potential, it also creates some uncertainty going forward. We must alter our sales and marketing presence and ultimately capture new customers within health and longevity in 2025. We continue to believe in our products and look forward to empowering health and longevity among the general population, one suPAR test at a time.”*
