CEO comment

I am very pleased to announce that Enea's growth journey continues with strength and resilience. Despite a challenging macroeconomic situation, and a stronger SEK exchange rate, we are reporting a 3 percent growth in constant currency (-2 percent in reported currency). Combined with solid cost control, this resulted in an adjusted EBITDA margin of 33 percent for the quarter, showing that Enea stands strong for the future.

Both our core areas, Networks and Security, delivered growth during the quarter, showing that our offerings remain relevant and solid even in uncertain times.

We have a good pipeline for the final quarter of the year and remain confident in delivering on our financial guidance.

The updated strategy is now being finalized, and will be communicated during the fourth quarter, as previously announced. I am confident that it will enable Enea to accelerate our profitable growth and strengthen our position going forward.

Quarter 3, 2025

During the quarter, Enea welcomed five new customers, all within the Security core area. In addition, we announced several important deals in the Networks core area:

- North American leading mobile network operator renewed and expanded its collaboration with Enea through our Traffic Management solution. The total contract value is SEK 39 million, of which SEK 14 million is recognized as net sales in the third quarter.
- North African Tier 1 communications service provider has signed a contract worth SEK 18 million for our Traffic Management solution, of which SEK 10 million will be recognized as net sales in the third quarter.

“Enea's growth journey continues with strength and resilience.”

Financial summary Q3

We report a 2 percent decline in revenues (3 percent growth in currency-adjusted terms), totaling SEK 213 million (SEK 222 million currency-adjusted). The underlying business continues to grow within both core areas, Networks and Security. Our networks business grew by 6 percent in constant currency, driven by our Traffic Management solution, while our security business grew by 3 percent in constant currency, mainly driven by DPI (Deep Packet Inspection) and firewalls. Our recurring revenue for the quarter accounted for 67 percent of total revenue.

Good profitability driven by good cost control

Despite the FX headwind, we report an adjusted EBITDA margin of 33 percent (34) in the quarter, totaling SEK 70 million (75).

Cash flow from operations amounted to SEK 21 million (19). Our cost levels remain stable and are slightly down year over year, thanks to operational improvements and a stronger SEK, mainly against the EUR, where we have most of our costs. We expect our cost levels to remain stable over the year.

The initiatives we started in early Q2 to optimize our exposure to financial net items are paying off. In Q3, we report an impact of SEK 0 million from financial net items. EPS for the period improved significantly to 1.77 SEK (0.18) per share.

Market developments supporting Eneas solution

The following events have influenced the telecom and cybersecurity markets during the quarter, driving stronger demand for Enea's solutions.

- **Security concern over phone locations for sale:** In Ireland, data brokers selling precise smartphone location data have raised major privacy and national security concerns by exposing users' movements and sensitive sites. Enea's Adaptive Signaling Firewall safeguards networks and subscribers from location leaks, while Enea's Traffic Management solution identifies and filters app-level traffic.
- **Hybrid attacks:** In Q3, global drone attacks intensified, including Russian strikes in Ukraine, incursions into Polish airspace, and a major "hybrid attack" on Copenhagen Airport that shut it down for four hours. Similar incidents in Norway and Sweden underscored the growing threat of drone warfare and reinforced Enea's focus on detecting drone communications using cellular networks.

Going forward

Although macroeconomic challenges continue to affect us, we remain well positioned for sustainable, long-term success. This is driven by our strong global presence, unique and expanding product portfolio, our dedicated teams, and successful customers. Combined with solid profitability, these factors strengthen our confidence in continued organic growth and future strategic acquisitions.

Despite the current market environment, both our 2025 and long-term guidance remain unchanged. For 2025, this means growth in our core areas and an adjusted EBITDA margin of between 30 and 35 percent, combined with stable cash flows. Looking further ahead, our long-term ambition is to achieve growth of more than 10 percent in our core areas and an adjusted EBITDA margin above 35 percent, supported by strong cash flows. I am confident that Enea is well positioned to deliver on these ambitions and continue creating long-term value.

TRAFFIC MANAGEMENT FOR 5G

Enea has signed a SEK 39 million agreement with a leading North American mobile operator, renewing and expanding a long-standing collaboration. The agreement covers Enea's cloud-native traffic management software, including the 5G Service Engine, which ensures smooth data flows, and the Stratum Network Data Layer, which handles subscriber information securely and efficiently.

By using Enea's technology, the operator can improve customer experience with faster and more reliable services, reduce network congestion during peak hours, and make it easier to introduce new 5G-based offerings.

Nomination Committee

In consultation with the largest shareholders, the Chairman of the Board of Enea AB has established a Nomination Committee for the AGM 2026. The members of the Nomination Committee are: Per Lindberg (own mandate), Niina Arkko (Aktia Asset Management), Roger T Storm (Handelsbanken Fonder), Taymour Ezzat (Herald Investment Management) and Kjell Duveblad (Chairman of Enea AB). The duty of the Nomination Committee is to submit proposals for the Chairman and other members of the Board, and fees and other compensation for work on the Board to each of the Board members, to the AGM.

The Nomination Committee should also submit proposals on the election and remuneration of auditors. The Nomination Committee should also submit proposals on the process of appointing a nomination committee for the AGM 2027.

Material risks and uncertainties

Enea operates mainly in the areas of cybersecurity and telecommunications. The uncertain global situation is having a negative effect on the global economy, which affects customers' risk appetite and willingness to invest. For Enea, this means that some projects are delayed or not implemented. At the same time, the underlying drivers for telecommunications remain, which means a continued focus on virtualization, 5G and increased network capacity.

Enea's business strategy is based on developing new products and improving existing solutions, which involves significant investments. At the end of the period, the value of capitalized development costs amounted to SEK 224.0 million (223.0). Investments are made in markets with great potential for growth and profitability and after careful analysis. If, despite this, products are not technically or commercially successful, it may have a negative impact on the company's operations and financial position, which may lead to changes in strategy and priorities.

Since no other significant changes occurred during the quarter regarding significant risks and uncertainties, Enea refers to the statement in the latest Annual Report on pages 25-27.

Long-term ambition

Our ambition is to develop Enea into the leading challenger in specialized software for cybersecurity and telecommunications. We are already established with major customers, and we are gaining new market shares with innovative solutions for the open, cloud-based systems of the future. We compete with large companies by being focused, faster and more agile, and we can attract the best talent. Our goal in the coming years is to generate double-digit growth in our focused business areas, an EBITDA margin above 35 percent and strong cash flows. Over time, we also want to make complementary acquisitions to further strengthen our market position.

Auditor's report

To the Board of directors in Enea AB (publ) corporate identity number 556209-7146

Introduction We have conducted a limited review of the condensed interim financial information (interim report) for Enea AB (publ) ("the Parent Company") and its subsidiaries (together "the Group") as of September 30, 2025, and the nine-month period ending on that date. The board of directors and the CEO are responsible for preparing and presenting this interim report in accordance with IAS 34 and the Swedish Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our limited review.

The focus and scope of limited review We have conducted our limited review in accordance with the International Standard on Review Engagements ISRE 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A limited review consists of making inquiries, primarily of persons responsible for financial and accounting matters, performing analytical procedures, and other review procedures. A limited review has a different focus and a significantly smaller scope compared to the focus and scope of an audit conducted in accordance with ISA and generally accepted auditing standards. The review procedures taken in a limited review do not enable us to obtain the assurance that we would become aware of all significant matters that might have been identified in an audit. Therefore, the conclusion expressed based on a limited review does not have the assurance that a conclusion expressed based on an audit has.

Conclusion Based on our limited review, nothing has come to our attention that causes us to believe that the interim report is not, in all material respects, prepared for the group in accordance with IAS 34 and the Annual Accounts Act and for the parent company in accordance with the Annual Accounts Act.

Accounting policies

This interim report has been prepared in accordance with IAS 34. Interim reporting, which is in accordance with Swedish law through the application of (Swedish Financial Reporting) RFR 1 - Supplementary accounting rules for groups and RFR 2 - Accounting for legal entities, regarding the Parent Company. The same accounting principles, definitions of key ratios and calculation methods have been applied as in the most recent annual report for both the Group and the Parent Company, unless otherwise stated below.

Financial assets and liabilities

The Group applies IFRS 13. The standard requires disclosure of the uncertainty in valuations based on the three levels used for financial instruments.

Level 1: The fair value of financial instruments traded on an active market is based on quoted market prices on the balance sheet date. A market is considered active if quoted prices from an

exchange, broker, industry group, pricing service or supervisory authority are readily and regularly available and its prices represent real and regular market transactions at arm's length. As of 30 September 2025, the Group does not report any level 1 financial instruments.

Level 2: The fair value of financial instruments that are not traded on an active market (e.g. OTC derivatives) is determined using valuation techniques. In some cases, the Group uses currency derivatives for hedging purposes. Currency hedges are valued at market value by making an early allocation of the currency hedge to determine what the forward price would be if maturity were on the balance sheet date. As of 30 September 2025, the Group does not report any level 2 financial instruments.

Level 3: as of 30 September 2025, the Group does not report any level 3 financial instruments.

For other financial assets and liabilities, the carrying amount corresponds to the fair value.

Alternative performance measures

This Interim Report uses non-IFRS measures that Enea, and other parties use to evaluate Enea's results of operations. These measures provide management and investors with significant information to analyze trends in the company's business operations. These non-IFRS measures are intended to complement, but not replace, financial measures presented in accordance with IFRS.

For definitions of financial key ratios, please refer to the Annual Report 2024 with the following adjustments effective from 2025:

EBITDA

Profit before financial items plus depreciation. EBITDA adjusted is EBITDA adjusted for items affecting comparability. Items affecting comparability include, as from 2025, also FX gain/loss on operating items.

Items affecting comparability

Items affecting comparability can include restructuring costs, non-recurring write-downs, legal advice costs relating to major disputes, and transaction and integration costs relating to major acquisitions and, as from 2025, also FX gain/loss on operating items. Transaction costs include costs for legal and financial advice but exclude financing costs. Reversed earn-outs are also included in items affecting comparability items. The purpose of specifying these is to clarify the development of the underlying business.

Comparison numbers in the report have been adjusted according to updated definition.
