Diadrom Software partners with Intland Software

Diadrom Software AB, a wholly owned subsidiary of Diadrom Holding AB (publ), is a leading software company in diagnostics of Autotech, has today signed a non-exclusive partnership with INTLAND SOFTWARE GmbH as a Consulting and Technical Partner for their codeBeamer Application Lifecycle Management (ALM) platform.

The technical partnership will include implementation of codeBeamer application support in the test automation tool Diadrom Dolphin. This will help our customers to connect the tests and validations with their requirements, and to get full traceability throughout the development process of embedded software products.

Furthermore, Diadrom will use codeBeamer in the development process of our embedded products Diadrom Autotech Bootloader and Diadrom Diagnostic Communication Stack.

Diadrom Software will also be a certified partner in Intland Software ecosystem and help Intland Software extend their reach, providing support and services for their products and Diadrom products.

"At Diadrom Software we are continuously striving to increase the quality and safety of our products and processes. As embedded software in modern vehicles is getting increasingly more advanced, there is a high demand on the development process to be both flexible and well-structured at the same time. The need of a modern ALM system is critical in this aspect. The partnership with Intland Software will help us and our customers in this work and will ease the progress within ASPICE and ISO26262." - Jonas Hellberg, Head of Product Development, Diadrom Software.

"The technical excellence of our partners is the key to driving the success of our customers. Diadrom and Intland Software established their partnership to strengthen the presence of both companies in the automotive industry in the Scandinavian region. The integration of codeBeamer ALM and Diadrom Dolphin brings forth an excellent opportunity to promote the benefits and technical advantages of seamlessly connecting test automation results and product quality assessment." – Reka Moksony, Head of Partner Alliances, INTLAND SOFTWARE GmbH,

"Diadrom continuously work to improve the quality and safety in our products and processes related to safety critical and complex Autotech applications. We are very proud to be a partner with Intland and hope for a long and productive collaboration," - Carl Johan Andersson, CEO, Diadrom Holding AB.

Diadrom's management believes that the partnership is strategically important.
