

Klimator is extending and expanding its collaboration with the Norwegian Public Roads Administration, to an annual value of approximately SEK 1.4 million.

Since 2008, Klimator has worked together with the Norwegian Public Roads Administration on deliveries of road conditions data and high-resolution data for road weather. The collaboration is being expanded in scope and will continue over the next five years, to an annual value of approximately SEK 1.4 million (SEK 7 million during the agreement period.)

- Norway is far ahead in using data with high-resolution forecasts for winter maintenance and we see a strength in both extending the agreement and at the same time expanding our services in close cooperation with the Norwegian Public Roads Administration," says Søren Pedersen, Head of winter maintenance.
