NIMBUS GROUP RECEIVES THE FIRST ORDER FOR A NIMBUS 495 FLYBRIDGE FROM THE MIDDLE EAST

Nimbus Group AB (publ) has, for the first time, received an order for a Nimbus 495 Flybridge from the Middle East. The buyer is a dealer in the region who has previously successfully sold boats under the Nimbus brand. The Nimbus 495 Flybridge is the largest boat ever launched under the Nimbus brand and belongs to the absolute top tier.

The 495 Flybridge embodies Nimbus' more than 50 years of experience in developing and building motorboats of the highest quality.

"The 495 Flybridge has been met with great enthusiasm and clearly strengthens our position in the prioritized premium segment. Receiving the first order for this boat from the Middle East demonstrates its potential to attract customers worldwide," says Johan Inden, CEO of Nimbus Group.

The Nimbus 495 Flybridge was introduced in 2023 and was first showcased to the public at the major boat show in Cannes in September last year. At the international boat show Boot Düsseldorf, it was named European Powerboat of the Year in January this year in the category of boats up to 18 meters. The award is considered one of the most prestigious in the industry and is decided annually by a jury consisting of test drivers and editors-in-chief from Europe's eight leading boating magazines, with a combined readership of one million per month.

The Nimbus 495 Flybridge is just over 49 feet long (approximately 15 meters) and reflects Nimbus Group's extensive experience in building boats adapted for various waters, combining the best solutions developed by Nimbus Group since its founding in 1968. The Nimbus 495 Flybridge is an ideal boat for longer journeys and stays at sea or in the archipelago. It is built at Nimbus Group's factory in Lugnås outside Mariestad.
