***Kristofer Tonström, CEO and President**: The positive sales trend continued in October with organic growth of 12 per cent. Increased investments in marketing and a relevant assortment contributed to strong customer traffic both in stores and online, not least in Spares' sales channels, which developed very well during the month. As in September, Finland showed the*

highest organic growth among the home markets. In Norway, total sales were positively impacted by currency effects. Just as before, the rapid appreciation of the Norwegian krone means that currency hedges will have a negative impact on earnings in the second quarter.
