# 3) Assessment of the validity of expenses incurred by the Company and the Group to sponsor cultural projects, sports, charitable organisations, the media, social organisations, trade unions, etc.

In the opinion of the Supervisory Board, the Company pursues a reasonable sponsorship policy in line with the principles set forth in the Charitable Sponsorship Policy at the KRUK Group, as adopted and implemented by the Company. As specified in the document, the KRUK Group conducts charitable and sponsorship activities by providing in-kind and financial support to non-profit organisations, but also to the Group's clients and employees in need.

In 2024, KRUK S.A. allocated more than PLN 1.5 million of its budget to charitable and sponsorship initiatives. Of this amount, 54% (approximately PLN 827 thousand) was directed to sponsorship activities, while 46% (approximately PLN 692 thousand) supported charitable causes, including cash donations.

The Supervisory Board is satisfied that these expenditures were appropriate and aligned with Group objectives.

Since September 2024, KRUK S.A. has been working with the Ogólnopolski Operator Oświaty foundation to develop a joint financial-education programme for children. The initiative uses Photon AI educational robots to make learning about personal finance more engaging; KRUK has sponsored ten such devices. The project will run until the end of the 2024/25 school year. This programme also reinforces "Day without Debt," a social campaign launched by KRUK in 2009 and marked in Poland each year on 17 November. Day without Debt 2024 was marked not only in Poland but also in Romania and Italy, where the Group operates subsidiaries.

The Group continued to support social groups particularly vulnerable to excessive indebtedness. In 2024, KRUK S.A. partnered with the Fundacja Dobrych Inicjatyw on the First Christmas of Independence initiative, which helps young adults leaving children's homes and foster care transition to independent living. The Company funded essential furnishings for rented accommodation, vocational courses and annual scholarships.

KRUK representatives took an active part in national and European industry forums, including the inaugural Credit Management Forum of the Lewiatan Confederation, the ZPF Credit Management Congress, the ZPF Financial Institutions Congress and the European Economic Congress. They contributed to debates on youth financial education, equality and diversity, and broader sector issues. For several years the Company has supported the ZPF public-awareness campaign "Debt Collection? Everything Cleer", aimed at promoting debt-management education among journalists and consumers alike. KRUK S.A. also sponsored the Bankier.pl Finance Forum, where students from the Wrocław University of Economics could actively attend discussions on financial literacy, money management, and investment strategies. KRUK's community support includes initiatives that counteract social divisions, foster dialogue, promote integration and collaboration among diverse groups, and assist marginalised and vulnerable communities, including advocacy efforts for people with disabilities. It also supports initiatives related to civic education, particularly in the context of fostering financial responsibility and shaping social attitudes. For the past two years, the Company has supported the Campus Polska event, which targets young people and encourages them to build their financial literacy and broaden their skills.

As part of its commitment to ethics and human rights advocacy, KRUK S.A. supported the mission-driven activities of the Garden of the Righteous Foundation, which commemorates and promotes the stories of individuals who saved lives in Europe and beyond or stood in defence of human freedom and dignity. Additionally, KRUK S.A. provided support to the Public Finance Institute Foundation (led by Professor Jerzy Hausner) in preparing the third edition of the report "Poland's Economic Credibility Index."

As part of its commitment to local communities, KRUK S.A. contributed to the SiePomaga foundation's "Entrepreneurs for Flood Victims" campaign, donating funds to assist those affected by the September 2024 floods in southern Poland. Additional support was directed to residents of Głuchołazy. KRUK S.A.

also sponsored a Gazeta Wyborcza Wrocław initiative that provides therapy for children from floodhit areas, helping them develop resilience and manage difficult emotions.

Prioritising the well-being of its clients, the Company provides free access to the Psychological Support Centre. Additionally, in 2024 KRUK S.A.'s support extended to the BloomPro Foundation's initiatives aimed at building mental resilience and protecting mental health among young people. As in previous years, KRUK S.A. acted as a sponsor of the "Bieg Firmowy" corporate relay—a charity run that promotes team cohesion and employee wellbeing while raising funds for beneficiaries of Fundacja Everest.

In 2024 KRUK S.A. partnered the "H2H Summit" in Karpacz, an event designed to promote the employment of people with disabilities in the Polish labour market. The Company made a donation to Fundacja Arterytorium to support its work in developing independent-living skills among people with disabilities.

To foster gender equality, collaboration and counter social polarisation, KRUK S.A. became a partner of the "Women and Men" social-dialogue series organised by Fundacja Nowej Wspólnoty.

KRUK S.A. also sponsored a number of cultural and media-integrity initiatives in 2024, including the Polityka Passports awards, the Góry Literatury Festival, Newsweek's Teresa Torańska Awards Gala, Grand Press Photo and the Grand Press 2024 journalism awards.

A Christmas charity auction organised by Wonga.pl raised PLN 10,000 for the Children's Home in Równe. In addition, as part of Diversity Month—an initiative to raise awareness of inter-generational cooperation—Wonga.pl employees visited senior citizens at the Nowolipie Inter-generational Activity Centre.

Similar initiatives are pursued in the other countries where the KRUK Group operates.

In Italy, the Group was engaged in both sponsorship and charitable work.

In 2024, KRUK Italia further strengthened its commitment to social sustainability. KRUK Italia was the lead sponsor, for the fifth consecutive year, of the 10th "Run for Children", contributing EUR 5,000. The Company also sponsored La Spezia's flagship rowing event, Palio del Golfo, with a contribution of EUR 5,500. The sponsorship served a dual purpose: enhancing KRUK Italia's brand visibility in La Spezia, where the Company's largest Italian office is located, and providing financial support for an event of significant importance to the local community.

As part of its long-standing charitable partnership with Sorriso Francescano—an association that provides shelter and support to children facing challenging family or social circumstances—KRUK Italia donated a further EUR 4,000.

In total, KRUK Italia allocated EUR 14,500 to charitable and sponsorship activities.

In 2024, KRUK Espana continued to expand its involvement in charitable and sponsorship projects, strengthening its commitment to corporate social responsibility, inclusivity and support for local communities. All initiatives were aligned with the KRUK Group Charitable Sponsorship Policy, with a focus on solidarity, diversity and financial inclusion.

Total spend on sponsorship and charitable activity was EUR 12,736.88, of which EUR 10,465 was donated to charitable causes. Beneficiaries included the Spanish Federation of Food Banks and residents affected by flooding in Valencia.

Spend on sponsorship initiatives was EUR 2,271.88. In addition, KRUK Espana signed the Diversity Charter of the Fundación para la Diversidad, underscoring its commitment to promoting inclusion and equal opportunities. The Company also supported charitable sports initiatives designed to encourage employee physical activity. KRUK Espana subsidised the rental of sports facilities and the purchase of equipment to make the programme widely accessible.

KRUK Romania is committed to promoting financial responsibility, supporting community initiatives and advancing financial education among young people. Its key 2024 projects reflect these priorities. As part of its mission to bring financial knowledge to Generation Z, KRUK Romania sponsored events for the "I Want to Be an Entrepreneur" community. The Company continues to back the "Smart Loans" financial-education programme, delivered by the NGO Junior Achievement Romania together with KRUK mentors, which seeks to raise financial-literacy levels in public schools. A total of EUR 10,000 was allocated to the programme in 2024.

In addition, KRUK Romania lends its support to the R€sponsABIL financial education programme, now in its fifth edition. The project supports young people aged 16–24 from disadvantaged backgrounds, helping them build independence and financial responsibility and improving their employment prospects. In 2024, the initiative received EUR 10,000 in funding. Another key undertaking was sponsorship of the first "I Love to Learn" festival for children and parents. Organised by RUBIK SCHOOL in partnership with KRUK mentors, the event promotes alternative learning methods and financial awareness. The Company allocated EUR 9,000 to this festival. Since 2021, KRUK Romania has supported teachers through the MERITO Community, a platform of talented Romanian educators committed to raising educational standards through innovation and transformation. KRUK provides continuing-education programmes—including financial-literacy modules—and recognises teachers' achievements in driving educational change. Funding for this project totalled EUR 10,000 in 2024. The purpose of these flagship sponsorship initiatives—and other financial-education projects to which EUR 52,300 was allocated in 2024—is to generate positive social impact by promoting financial literacy and fostering a more sustainable future for all Romanians.

In 2024, KRUK Romania also supported the Romanian Red Cross, contributing EUR 21,500 to help individuals with serious illnesses who lack the means to fund treatment and care.

In total, KRUK Romania committed EUR 186,881 to charitable and sponsorship activity during the year. These initiatives reaffirm the Company's ongoing commitment to financial responsibility, community support and education.

In 2024, the KRUK Group did not provide any financial or in-kind support to political causes or organisations.

The Supervisory Board gives a positive assessment of the Group's charitable and sponsorship activities, which are intended to help those in need and to promote healthy financial and environmental attitudes in the context of excessive consumerism. Such activities are always carried out in accordance with applicable environmental laws, regulations and standards. In the Supervisory Board's opinion, those activities are aligned with the core values embraced by the Company and fully reflect the KRUK Group's commitment to helping those in need and to financial education of local communities. Such efforts are also intended to foster the Company's image as a socially and environmentally responsible organisation and a competitive employer.

# 4) Assessment of the degree of implementation of the diversity policy applicable to the Management Board and the Supervisory Board

KRUK S.A. and its Group subsidiaries have adopted a Diversity and Inclusion Policy. Its first version was introduced in 2015, with the latest update made on 25 August 2024.

The Diversity and Inclusion Policy applies to all employees and non-employee workers across the KRUK Group, regardless of the basis of their employment or engagement. All employees and non-employee workers within the Group, including the managerial team and Management Board, are required to familiarise themselves with and adhere to the Policy. Any breaches of the Diversity and Inclusion Policy can be reported through the whistleblowing channel designated for the respective Group entity. The Policy is subject to review at least once a year to account for legal changes, reflect organisational developments, and assess the relevance of its outlined processes.

Since 2024, the implementation of the Diversity and Inclusion Policy and the coordination of efforts to foster a diverse, equitable and inclusive workplace have been overseen by the Group Diversity, Equity & Inclusion Lead, supported by the central Human Resources Area team, reporting to the Chief Investment Officer (CIO) of KRUK S.A. The CIO supervises the execution of DEI-related initiatives, ensures the Policy's effective implementation, and actively promotes DEI values across the KRUK Group, alongside the Management Board.

The Diversity and Inclusion Policy provides a framework within which goals are set and pursued in the following key areas:

- diversity management, encompassing aspects such as gender, age, disability, physical and mental health, race, origin, ethnicity, nationality, religion, belief (or lack thereof), political views, sexual orientation, gender identity, family status, neurodiversity, educational background, and life experiences,
- ensuring equal opportunities, defined as fair and just treatment of all individuals within the
  organisation to provide equitable access to resources regardless of any naturally occurring
  differences,
- promoting inclusive practices throughout the KRUK Group, understood as deliberate actions
  that encourage collaboration, ensuring that everyone feels included, and proactively combat
  social barriers and all forms of exclusion.

The Diversity and Inclusion Policy sets out the following key goals:

- raising awareness of diversity, equal opportunities, and inclusivity in the workplace;
- fostering and promoting equal opportunities at the KRUK Group;
- effectively managing diversity and inclusivity across various aspects of employment, including recruitment, hiring, remuneration, professional development, promotions, employee benefits, internal and external communication, engagement surveys, data monitoring and reporting, and protection against unjustified dismissal.

As part of its commitment to the Diversity and Inclusion Policy, the KRUK Group ensures that:

- job postings are written in inclusive language, with interview invitations based solely on candidates' qualifications and experience;
- the organisation actively works to increase employment opportunities for individuals with disabilities by reducing recruitment barriers, reaching out to a wider pool of candidates, and ensuring accessibility throughout the hiring process;
- the KRUK Group is committed to providing equal access to learning and professional development opportunities for all employees. This is achieved through an open catalogue of training programmes, available to all employees regardless of their position within the Group, and a variety of educational initiatives, including webinars, workshops, and internal communication articles, tailored to different roles, including leadership positions.

The KRUK Group regularly monitors pay disparities, with a particular focus on the gender pay gap (both adjusted and unadjusted). Accordingly, gender-based pay analyses are carried out across all organisational units and job positions within the Group to ensure that any observed differences in remuneration are based solely on objective factors such as the nature of the work performed, individual performance, competencies, and professional experience.

The Group actively monitors a number of DEI indicators, with a focus on gender distribution (particularly on the management and supervisory bodies, among managerial staff and in leadership positions), access to promotions, pay gap, use of parental and caregiving leave, the number of employees returning to work after extended absences, percentage of employees with disabilities, age diversity, ethnic and cultural diversity, reported cases of discrimination, and the number of employees who have completed mandatory DEI (Diversity, Equity, and Inclusion) training.

The implementation of the DEI Policy is further supported by: the KRUK Group's Business Strategy (including its Mission, Vision and Values), the KRUK Group's Code of Ethics and the KRUK Group's Human Rights Policy.

Key diversity, equity, and inclusion (DEI) indicators:

- gender balance: the current workforce consists of 63% female and 37% male employees, with women holding 57% of director positions.

Building on our strong ethical approach and core values of respect, accountability, and cooperation, KRUK organised its first-ever global internal communication campaign for the Pride Month in 2024. The initiative featured a dedicated LGBTQ+ workplace inclusion guide, provided by the CIO to every manager at the KRUK Group, awareness campaigns and local events across various markets.

To further promote workplace accessibility and inclusion for people with disabilities, KRUK observed the Disability Pride Month in July, providing the Group's employees and other workers with a comprehensive guide on disability rights aligned with local regulations via internal communication channels. In December 2024, experiential workshops were held at the Head Office in Wrocław, featuring interactive stations to help gain a deeper understanding of challenges faced by individuals with visual, auditory, and mobility impairments, as well as age-related limitations. The workshops were attended by employees of Polish companies, the Head Office, as well as guests from Romania and Spain. To support daily workplace integration, local disability ambassadors have been appointed in each country, whose role is to enhance internal accessibility and support our employees in overcoming barriers.

Other initiatives throughout the year included internal communications and guides on parenting programmes, neurodiversity, multicultural collaboration, and mental health. Additionally, mental-health support programmes are in place in Poland, Romania, Spain, Italy and the Czech Republic, providing professional assistance to employees experiencing crises.

KRUK S.A. has been a signatory to the Polish Diversity Charter since 2013, with its principles upheld across all Group companies. Additionally, Wonga joined the Polish signatories in 2018. In the same year, KRUK Romania became a signatory to the Romanian Diversity Charter, while KRUK España signed the Spanish Charter in 2024. To further its commitment to workplace diversity, equity and inclusion awareness, KRUK has partnered with a number of organisations, including: 30% Club Poland – aimed at increasing the representation of women on corporate boards.

As at the date of this Report, KRUK S.A. did not have in place a diversity policy that would be directly applicable to Members of its Management or Supervisory Board. However, work to develop such a policy was under way.

In 2024, out of the 12 Members of the Company's Management Board and Supervisory Board, five were women, representing 42% of their total composition.

### Report on the work of the Remuneration and Appointments Committee

The Remuneration and Appointments Committee is composed of at least three members, including at least one member with knowledge and experience in the area of remuneration policy; the majority of the Remuneration and Appointments Committee members should be independent members of the Supervisory Board.

In the period 1 January–31 December 2024, the Remuneration and Appointments Committee was composed of:

- Ewa Radkowska-Świętoń Chair of the Committee, independent Member of the Supervisory Board:
- Krzysztof Kawalec Member of the Committee, non-independent Member of the Supervisory Board;
- Piotr Szczepiórkowski Member of the Committee, non-independent Member of the Supervisory Board.

The above composition of the Committee remained unchanged as at the date of this Report.

Two of the three members of the Remuneration and Appointments Committee, i.e. Ewa Radkowska-Świętoń, who chairs the Committee, and member of the Committee Piotr Szczepiórkowski, meet the independence criteria.

The Remuneration and Appointments Committee's responsibilities include in particular:

- 1) planning of the remuneration policy for the Management Board Members;
- 2) alignment of the Management Board Members' remuneration with the Company's long-term interests and financial performance;
- 3) recommendation of candidates to the Management Board to the Supervisory Board;
- 4) periodic assessment of the structure, number of Members, composition and performance of the Management Board, and, where needed, recommendation of changes in this respect to the Supervisory Board, and
- 5) submission of a periodic assessment of the skills, knowledge and experience of the individual Management Board Members to the Supervisory Board.

In 2024, the Remuneration and Appointments Committee was primarily engaged in:

- preparing a Report on Remuneration of Members of the Management Board and Supervisory Board of KRUK S.A. for 2023, which involved collaborating with the Company, the Audit Committee, a legal adviser, the auditor evaluating the Report. The conclusions of the Report were subsequently presented to the entire Supervisory Board;
- appointing an auditor to assess the Report on Remuneration of Members of the Management Board and Supervisory Board of KRUK S.A. for 2024;

- consulting on amendments to the Remuneration Policy for Members of the Management Board and Supervisory Board of KRUK S.A. of Wrocław, and assessing the Management Board's proposal pertaining thereto;
- consulting on proposed terms of the Company's 2025-2028 incentive scheme and amendments to the Articles of Association;

- planning for succession at the Company, with particular focus on succession plans for Management Board members;
- review of the executive pay across the KRUK Group.

As part of the Remuneration and Nominations Committee's review of executive pay benchmarks for the KRUK Group, the Supervisory Board—acting on the Committee's recommendations—resolved to adjust the remuneration of the Company's Management Board. The Committee considers the KRUK Group a leading European player in its sector and therefore believes it appropriate to realign the peer group, given the lack of suitable reference points among Polish-listed companies. The benchmarking process launched in 2024 to align Management Board pay with remuneration levels at international peers warranted a material adjustment to Management Board remuneration in March 2024. When setting the increases, the Committee took into account the absence of performance-related bonuses in the current remuneration structure, a feature that distinguishes KRUK from its industry peers. The Committee also began monitoring the remuneration of the General Managers responsible for the Group's operations in each market.

Members of the Committee were discussing their business at meetings held using means of remote communication and via conference calls held to discuss a specific matter. All Members of the Committee were involved in the Committee's work, attending meetings and conference calls.
