## **Kollect on Demand Holding AB (publ) announces that it is ranked in the Deloitte Ireland 2021 Technology Fast 50**

**Today on December 10, 2021, Kollect on Demand Holding AB (publ) (“Kollect” or the “Company”) announces it has been ranked 20 in the 2021 Deloitte Technology Fast 50.**

The Deloitte Technology Fast 50 Awards is one of Ireland’s foremost technology award programmes. It is a ranking of the country’s 50 fastest-growing technology companies based on revenue growth over the last four years. This year marks 22 years of the programme celebrating innovation and entrepreneurship in Ireland’s indigenous technology sector.

Kollect’s CEO, John O’Connor, credits the disruptive nature of the Company’s business model and relentless focus on the customer with the company’s growth over the past four years. He went on to say:

“It is very pleasing to have entered the Fast 50 for the first time directly at number 20. Our growth over the past four years reflects the demand from customers for excellent service and our ability to integrate technology into our customer offerings. We have supported thousands of customers in the past year, and we are looking forward to continuing our substantial growth into 2022 and beyond.

“I’d like to thank our shareholders who have supported us through our IPO and subsequent fund raisings; my co-founders and the management team that have executed on our growth strategy; the employees for their hard work and commitment to providing our customers with an excellent service; our suppliers for their support; and, most importantly, our customers for selecting us to provide for their waste collection needs.”
