

NEW ORDER FROM SPAIN: OPTICEPT'S CEPT® TECHNOLOGY CHOSEN FOR OLIVE OIL EXTRACTION

OptiCept Technologies has received an order for the company's patented CEPT® system, OPTICEPT® LO7, valued at approximately 3 MSEK. The customer is one of Spain's most renowned producers of high-quality olive oil, operating in Andalusia – the heart of Spanish olive cultivation. Delivery and installation are planned ahead of the 2025 harvest season.

The ordered system is specially designed to optimize both yield and quality in the extraction of olive oil using Pulsed Electric Field (PEF) – an advanced technology that enhances efficiency in food processing.

"We are proud that one of Spain's most award-winning olive oil producers has chosen our CEPT® technology. It's a clear validation of the technology's commercial impact and the value we can offer customers," says Thomas Lundqvist, CEO of OptiCept Technologies.

The current customer is a family-owned business for many generations and is consistently ranked as one of Spain's top olive oil producers.

More information about the market potential and OptiCept's strategic position in the olive oil segment can be found in the latest market analysis OPTINSIGHTS OLIVE OIL, available here: <https://investor.opticept.se/wp-content/uploads/2025/05/Optinsights-Olivolja.pdf>

About Us

OptiCept Technologies AB (publ) provides the food and plant industry with technological solutions that contribute to a more sustainable world and enable climate-smart economic growth. OptiCept optimizes biological processes - Increased extraction from raw material, extended shelf life, reduced waste, and improved quality (taste, aroma, color, nutritional content) of the final product.

The positive effects of technology increase efficiency for our customers, provide better products for the consumers, and minimal impact on our environment. Through patented technology in PEF (pulsed electric field) and VI (Vacuum Infusion), the technology opens up new business opportunities for the food and plant industry worldwide. OptiCept's vision is to contribute to a sustainable world by offering efficient, green, cutting-edge technology that is easy to use in the areas of FoodTech and PlantTech.

The company is located in Lund and the share is traded on the Nasdaq First North Growth Market (ticker: OPTI). The Company's Certified Adviser is DNB Carnegie Investment Bank AB.
