

## ZignSec Launches Its New Portal

**Today, ZignSec announces the launch of its new Portal, a compliance orchestration platform providing clients with a convenient way to access ZignSec's portfolio of integrated, best-of-breed KYC, KYB, and AML compliance solutions. The launch of the portal is accompanied by a new web presence.**

The new Portal is expected to drive customer growth by simplifying the onboarding process and making it easier for ZignSec's existing customer base to discover and purchase more relevant products. The SaaS-based portal enables small to mid-sized companies to access ZignSec's broad portfolio of KYC, KYB, and AML compliance solutions, thereby significantly increasing ZignSec's addressable market which is expected to drive revenue growth and enhance profit margins.

The compliance orchestration platform is a Software-as-a-Service (SaaS) portal that creates a comprehensive picture of an individual or a company. It rapidly streamlines and simplifies customer onboarding and KYC/AML. The portal also enables ZignSec's customers to connect to ready-made KYC/B workflow solutions without needing to code – all complete with data analysis, user management, and a flexible billing system.

Comment from Alex Noton, CEO of ZignSec:

"With the new Portal, ZignSec has achieved a major milestone in its development as a leading RegTech provider. The team at ZignSec and our subsidiaries Web Shield, Wyzer, and Basis ID have worked tirelessly for months. We will continue to add superior third-party integrations and workflow solutions to create even more value for our existing customers and attract new ones with the help of an expanded sales team."

### ABOUT ZIGNSEC AB

ZignSec is a technology group in the fast-growing RegTech industry. The company provides a SaaS platform with digital real-time solutions for customer due diligence and ID verification with global reach. The solutions are used by companies that in turn can optimize their processes for "onboarding" both corporate customers and consumers and at the same time ensure compliance with ever-changing local and global regulatory requirements for Know Your Customer (KYC) and Anti Money Laundering (AML).
