

Company update regarding the renewal process for Selektope in the EU (webcast)

Following the news released earlier today on May 24th 2023, I-Tech's CEO, Philip Chaabane will give a company update regarding the renewal process for Selektope in the EU. The presentation will focus on the suggestion from the advisory expert panel within ECHA.

The webcast will start at 08.00 CEST on Thursday, May 25th.

The presentation will address the following topics:

- How the suggested change in classification for Selektope may affect the company – in the long and short run.
- The scientific facts.
- The legal situation.
- The subsequent stages of the renewal process.

I-Tech's Head of Regulatory Affairs, Cecilia Ohlauson will also attend the webcast.

The presentation will be held in English and will last approximately 15 minutes, whereafter the floor will open for questions.

About I-Tech AB

I-Tech is a biotechnology company that has developed the product Selektope®, an active agent that prevents barnacle attachment on submerged surfaces such as ships and boat hulls, but also other marine installations. By increasing the resistance to barnacle growth in marine paint systems (e.g. antifouling coatings), fuel and maintenance costs are reduced. I-Tech has obtained the necessary regulatory approvals for Selektope® and has several of the world's largest manufacturers of marine antifouling coatings as customers. The company's share is listed for trading on Nasdaq First North Growth Market in Stockholm with Erik Penser Bank as Certified Adviser. For more information visit our website www.i-tech.se.
