

Ortivus appoints Jessica Nylander as OTR-Manager

We are happy to announce the recruitment of Jessica Nylander as Order to Remittance (OTR)-Manager and as a member of the management team. OTR-Manager is a new position within the company and Jessica will be responsible for projects and delivery.

Jessica has solid experience and has previously been active in Fast Movable Consumer Goods (FMCG). She holds a Master of Science in Industrial Economics from the Royal Institute of Technology in Stockholm and has also studied at the Technical University of Munich, Germany. Jessica has held several senior positions and she most recently came from the role of Senior Supply Chain Manager at Procter & Gamble Nordics.

"As Ortivus grows with a rising number of international deliveries, the need for a delivery manager has increased. Jessica's previous experience and profile is a perfect fit for this new role." Says Reidar Gårdebäck, CEO Ortivus

Jessica will take office as OTR Manager in August 2022.

About Ortivus

Ortivus develops and commercialises MobiMed, medical technology solutions for a safer and more efficient healthcare. The company was founded in 1985 and is today a leading provider of mobile digital solutions for prehospital care, worldwide. Ortivus' products are based on in-depth expertise in cardiology as well as decades of development together with users and customers. The company's headquarters are located in Danderyd, Stockholm and the company has, since 1998, a wholly-owned subsidiary based in the United Kingdom.

MobiMed is a modular platform that currently is used by over 12,000 paramedics in over 2,700 emergency vehicles. The platform consists of a monitor that in real-time measures, monitors and shares patients' vital parameters, such as, ECG, blood pressure and blood oxygenation. The system also consists of an electronic patient record for decision support, collection of patient data and clinical documentation.

MobiMed has a total weight of 3.5kg and is created to function in a demanding environment and out in the field. The two-way communication supports telemedicine consulting with clinical experts while patient data is seamlessly integrated into the medical records at the hospitals and primary care centers. MobiMed saves time and helps healthcare professionals make the right decisions in critical situations. MobiMed also contributes to improved quality of care and saved resources.

Ortivus Class A and Class B shares are listed on the NASDAQ Stockholm Small Cap list.
