

Audiodo Introduces Personal Transparency: Redefining Sound Personalization

Press release -Product launch

Audiodo, a leader in sound personalization technology, is proud to announce its latest industry-leading innovation: **Personal Transparency**. This cutting-edge feature redefines how users interact with sound, providing unparalleled clarity and personalized audio experiences. **Personal Transparency** allows users to seamlessly hear their surroundings while benefiting from Audiodo's signature **Personal Sound** technology. Whether listening to music, taking a call, or engaging in conversation, the feature adapts in real time, ensuring that every sound is optimized to the user's unique hearing profile—without compromising environmental awareness.

"We're excited to introduce Personal Transparency, a breakthrough that transforms how users experience surrounding environment and sound. By allowing effortless transitions between personal audio and natural surroundings, we're setting a new standard for immersive audio experiences," said Michel Roig CSO of Audiodo.

This launch marks the second product feature under **Audiodo Personalization**, an expanding product umbrella designed to revolutionize sound personalization. With two more product features set to be announced soon, Audiodo continues to push the boundaries of immersive, user-centric audio solutions. **Stay tuned for these exciting releases.**

Personal Transparency is part of Audiodo's mission to deliver a fully customized, real-time sound experience, designed to enhance how users interact with their auditory environment.
