^{1.} Calculated on average balances.

^{2.} Core income is defined as net interest income plus net fee & commission income.

^{3.} Calculated as (Administrative expenses + Contribution to the Depositors' and Investors' Guarantee Fund – One-off items) / (Total operating income – One-off items).

^{4.} C/I ratio for 1H23 excludes a charge of ISK 860m due to an administrative fine. C/I ratio for 2022 included a provision of ISK 300m made in connection with the administrative fine, the C/I ratio has been restated so it excludes the provision.

^{5.} Negative cost of risk means that there is a net release of impairments.

^{6.} Numbers exclude seasonal employees.

^{7.} The average LTV can be calculated in many different ways and therefore the definition is important for comparison to other banks.

The weight is Íslandsbanki's total amount outstanding on the property and the LTV used is the maximum LTV of all Íslandsbanki's loans of the property.

^{8.} Stage 3, loans to customers, gross carrying amount.

Íslandsbanki S&P credit ratings

BBB/A-2 Stable Outlook

Rating Report 13 July 2022

S&P Global Ratings (S&P) affirmed Íslandsbanki's rating at BBB/A-2 with a stable outlook on 13 July 2022.

In its report, S&P views economic risks facing Icelandic financial institutions as elevated as property prices have risen higher than fundamental determinants, which could occasion a risk of a disorderly correction with a heavy impact on the Icelandic banks. However, S&P notes that the tourism sector recovery continues which will improve corporate sector performance.

S&P states that they could lower the ratings of Icelandic banks if they see a rapid and severe correction in the housing market. They could also lower the rating if they expect capitalisation to fall below the level they consider to be very strong. S&P could raise their ratings if they see housing market correction risk ease markedly, paired with stable and robust sector earnings. Likewise, the agency will look favourably on plans to build significant additional buffers of loss absorbing capital.
