

Acconeer receives USD 260 000 order from Nexty Electronics

The order comes from Nexty Electronics and relates to Acconeer's first product in the A2 family, the A212 Pulsed Coherent Radar sensor. The order is intended for mass production in the automotive industry and will be used by a European premium car manufacturer for several in-cabin use cases. Delivery planned to be completed in July 2026.

CEO Ted Hansson comments: "We are pleased to receive another order, confirming customer demand and volume ramp up."

About Acconeer AB

With ground-breaking technology, Acconeer has developed a radar sensor that opens a new world of interaction. Acconeer Micro Radar Sensor, with low power consumption, high precision, small size and high robustness, is a 60GHz robust and cost-effective sensor for detection, distance measurement, motion detection and camera-supported applications with low power consumption. Acconeer combines the advantage of low power consumption with highly accurate pulsed radar systems of coherent radar, all integrated into a component with a surface area of only 28 mm². The radar sensor can be included in a range of mobile consumer products, from smartphones to wearables, but also in areas such as robots, drones, the Internet of Things, healthcare, automotive, industrial robots and security and monitoring systems. Acconeer is a semiconductor company and, as a business model, sells hardware to manufacturers of consumer electronics products. Acconeer is listed on Nasdaq First North Growth Market with the ticker code ACCON, Redeye is the company's Certified Advisor (CA). For more information: www.acconeer.com.
