# Freemelt receives order for Freemelt ONE from its first American customer

---

**Freemelt has received an order for a Freemelt ONE system from a company in the United States of America with an order value close to 0.5 million USD. The system will be used for material development for new applications, and it will be delivered during the first quarter in 2022.**

“This is the first order for a Freemelt ONE system outside of Europe which is an important milestone for Freemelt and with this order we now enter the North American market which we expect to become an important market for Freemelt” says Ulric Ljungblad, CEO and co-founder of Freemelt.

## About Us

Freemelt is a high-tech growth company whose ground-breaking solution creates new opportunities for rapid growth in 3D printing, also known as additive manufacturing. The Company's protected technology – which already are available – takes 3D printing to a new level and provides new opportunities for printing products in a cost-effective way and to a consistent and high quality that previously was impossible. By choosing an open source solution, the conditions are created for strong growth, and the Company will expand towards manufacturing markets, moving forward. For more information, see [www.freemelt.com](http://www.freemelt.com).
