

Impact Coatings and European PEM Electrolyzer Supplier Sign Coating Service Supply Agreement

Impact Coatings AB (Linköping, Sweden) and a European supplier of PEM electrolyzers have signed a three-year supply agreement today, under which Impact Coatings will provide coating services for separator plates and porous transport layer (PTL) plates used in PEM electrolyzers. Sampling efforts leading up to the supply agreement started during 2024.

Deliveries under the agreement will begin in summer 2025, initiating an industrial collaboration to support the scale-up of electrolyzer production. Impact Coatings' Coating Service Center in Linköping will be responsible for the coating production and volumes and revenues are expected to grow over time in line with the customer's planned manufacturing ramp-up.

"There is significant interest from the hydrogen sector globally in Impact Coatings' solutions for PEM electrolyzers. This supply agreement with a European manufacturer indicates that also the European industry is in transition from sampling to volume production," said Stefan Dreger, Regional President EMEA, Hydrogen Solutions, at Impact Coatings.

About Impact Coatings

Impact Coatings (www.impactcoatings.com) is a global technology leader and full-service provider of coating solutions using PVD technology. The company focuses on hydrogen and metallization applications, both part of important growth markets.

PVD stands for physical vapor deposition – clean processes of applying thin layers of coatings to design surface properties, prolong lifespan, and improve product performance. The company's offer consists of efficient, modular, and flexible PVD systems, and coating services, underpinned by several decades of coating experience and expertise.

The company was founded in 1997 and has since expanded in Europe, Asia and North America. Current production facilities are located in Linköping, Sweden, and in Shanghai, China.

The Impact Coatings share is listed on Nasdaq First North Growth Market (Nasdaq Nordic). The company's Certified Adviser is Redeye AB.
