

BeammWave to exhibit at SEMICON Japan 2024, Japan's largest international electronics manufacturing exhibition

BeammWave will participate in SEMICON Japan 2024, an international exhibition showcasing cutting-edge semiconductor manufacturing technologies, equipment, and applications. The event will be held at Tokyo Big Sight from December 11 (Wed) to 13 (Fri), 2024.

"SEMICON Japan is an incredible opportunity to showcase BeammWave's groundbreaking technology to a global audience. As pioneers in digital beamforming solutions for mmWave beamforming, we are redefining performance and cost-efficiency for 5G and 6G applications. We look forward to connecting with industry leaders and exploring collaborations that drive innovation in the semiconductor ecosystem", says Rob Cadman, VP of Business Development and Sales at BeammWave.

BeammWave will be located in booth #7201, within the European Commission.

About Us

BeammWave AB are experts in communication solutions for frequencies over 24GHz. The company is building a solution intended for 5G and 6G, in the form of a radio chip with antenna and associated algorithms. The company's approach with digital beamforming is unique and patented, with the aim of delivering a solution with higher performance at a lower cost. The company's Class B shares (BEAMMW B) are listed on the Nasdaq First North Growth Market in Stockholm. Certified Adviser is Redeye AB.
