

## C-RAD PRESENTS NEW PRODUCT ENHANCEMENTS AT ESTRO 2025

At ESTRO 2025 in Vienna, C-RAD will present new product enhancements, reflecting the company's continued focus on empowering clinicians with tools that make a tangible difference in daily practice.

With a clear emphasis on user experience and streamlined workflows, these new product offerings are designed to support healthcare professionals in delivering precise, efficient, and patient-centered cancer care.

### SGRT Solutions for Smooth Workflows

The latest product developments reflect C-RAD's user-first approach and dedication to improving the everyday realities of clinical work through streamlined SGRT workflows. They include:

- **Catalyst+LITE** – A smart and accessible way for clinics to begin their SGRT journey, enabling high-precision motion management together with secure, tattoo-less patient setup. The new solution provides an efficient entry point into SGRT that can be seamlessly upgraded to Catalyst+ HD.
- **Ergonomic workflow enhancements** – Designed to support a smoother, more intuitive setup experience, the new ergonomic workflow features initial coarse posture correction to ensure optimal alignment, improved accessibility as well as a user-friendly setup that prioritizes clinician comfort.
- **Customizable Graphical User Interface (GUI)** – A redesigned interface designed for clarity and usability, allowing for a more streamlined experience while maintaining existing workflows and functionality.

These new product enhancements strengthen C-RAD's SGRT offering and underscore the company's ongoing collaboration with the clinical community to meet real-world needs.

**Cecilia de Leeuw, CEO of C-RAD**, commented: "ESTRO 2025 marks an exciting milestone for C-RAD. We've worked closely with our customers to ensure that everything we present — from product updates to how we communicate — is grounded in what they truly need. These launches reflect the strength of that collaboration and our commitment to making cancer care safer, more precise, and more personal. This is the essence of C-RAD: solution-driven, purposeful, and deeply connected to those we serve."

C-RAD welcomes all ESTRO 2025 attendees to visit Booth 860 to explore the latest product updates.

**About C-RAD**

---

C-RAD develops surface-guided imaging solutions for radiation therapy to allow highly accurate dose delivery to the tumor, and at the same time, to protect healthy tissue from unwanted exposure. Using high-speed 3D cameras combined with augmented reality, C-RAD supports the initial patient setup process and monitors the patient's motion during treatment to ensure high confidence, an efficient workflow, and improved accuracy. C-RAD monitors the patient's motion without the use of tattoos or additional imaging dose, to deliver the highest level of patient safety and comfort.

C-RAD AB is listed on NASDAQ Stockholm.
