Kambi Group plc extends Turnkey Sportsbook partnership with BetWarrior

Multi-year agreement sees BetWarrior continue to leverage Kambi's premium sportsbook technology in Argentina and additional regulated markets across Latin America

Kambi Group plc ("Kambi"), the home of premium sports betting solutions, is pleased to announce a multi-year extension to its successful sportsbook partnership with BetWarrior, one of Latin America's leading online sports betting operators.

Under the renewed agreement, BetWarrior will continue to leverage Kambi's award-winning end-to-end sportsbook technology, benefiting from the scale, performance and liquidity of one of the world's largest sports betting networks.

Since partnering with Kambi in 2019, BetWarrior has become one of Argentina's leading sports betting brands, and more recently expanded its reach into Brazil and Peru.

The partnership extension further strengthens Kambi's momentum in Latin America, where the company continues to expand its footprint by supporting operators with its deep regulatory expertise, strong local market knowledge and a proven, scalable sportsbook solution.

Werner Becher, CEO of Kambi Group, said: "BetWarrior has established itself as one of the most ambitious operators in Latin America, and we are proud to extend our partnership as they continue their growth journey. This multi-year agreement further demonstrates Kambi's ability to support leading operators with a premium sportsbook solution that enables sustainable success in highly competitive and evolving regulated markets across the region."

Zeno Ossko, CEO of BetWarrior, added: "Kambi has been a key strategic partner in our growth to date, providing a high-performance sportsbook that allows us to compete at the highest level. Extending this partnership was a natural decision as we look to further strengthen our position in Argentina and regulated markets across Latin America. We look forward to continuing our work with Kambi to deliver an outstanding sports betting experience for our players."
