

## Maven Wireless receives call-off order of SEK 10 million from Austria

**Maven Wireless has received an order through Tomek GmbH within an existing framework agreement with the Austrian Transport Administration ÖBB worth just over SEK 10 million**

This order includes blue light radio for police and fire brigades, GSM-Rail and VHF radio for connection of all critical communication systems in the Austrian Wienerwald tunnel. The Wienerwald Tunnel is a 13 km long railway tunnel with double tunnel tubes near Vienna, which passes under the northern part of the Wienerwald. It is part of a 250-kilometer-per-hour (160 mph) section between Vienna and St. Pölten which is part of Austria's Western Railway. The order is planned to be delivered and invoiced during June 2025. There are plans to upgrade the Wienerwald tunnel with public cellular services in a second phase with planned start in the second half of 2025.
