

## Chordate Medical receives market authorization for the migraine indication in Saudi Arabia

**Chordate Medical announces that the Saudi Food and Drug Authority (SFDA) has approved the application for market authorization for the migraine indication of the Ozilia®Migraine product system. This means that Chordate and the distributor Janin Medical can initiate the introduction of Ozilia® in the migraine market in Saudi Arabia.**

"Saudi Arabia's competent authority, SFDA, is undergoing rapid development, which for us means more bureaucracy, but also better predictability. It is therefore very gratifying that our application was approved earlier than expected. Janin, together with our General Manager in Jeddah, has been processing customer prospects for some time, and we can now immediately begin the introduction of the migraine treatment in the market," says Anders Weilandt, CEO of Chordate.
