

## Qben Construction secures SEK 200 million order for residential development project in Stockholm

**Qben Infra announces that its platform company Qben Construction has secured a contract for a residential development project in Sundbyberg, Stockholm. The project involves the construction of 118 residential apartments and is expected to generate approximately SEK 200 million in sales revenue for Qben Construction over the next 18 months.**

The customer is a Swedish residential development company.

"We are proud to take on another major residential development project in the Stockholm region as a trusted entrepreneur and partner. This new contract highlights the increasing recognition of our offering and we are proud to be part of supporting Stockholm's urban growth with high-quality housing," says Fredrik Arpe, interim CEO of Qben Construction.

The contract is subject to customary financing conditions being satisfied.

**About Qben Infra**

*Qben Infra is a group specializing in the acquisition and development of platforms within infrastructure services in the Nordics, gathering a diversified portfolio of 20+ companies across four infrastructure niches: Construction, Rail, Power and Testing, Inspection & Certification (TIC). To drive value creation, Qben Infra collaborates closely with the platforms, focusing on identifying investment opportunities within profitable niches with strong potential for development, consolidation, and growth. This strategy fosters sustainable growth and profitability, enabling Qben Infra to play a vital role in advancing infrastructure development in the Nordics, now and going forward. By merging platforms with distinct yet complementary expertise, Qben Infra unlocks synergies and capitalizes on expansive market opportunities, enabling the group to take on even larger and more complex projects.
