

PRESS RELEASE

15 September 2025 08:00:00 CEST

TERRANET TO EXHIBIT AT AUTO.AI EUROPE 2025

On September 29–30, Terranet will be on-site as an exhibitor at Auto.AI Europe in Berlin – Europe's leading technical conference on artificial intelligence for self-driving vehicles.

Auto.AI Europe is an international conference that brings together researchers, engineers and decision-makers with a focus on the future of autonomous driving. Over two days, the latest advances in artificial intelligence will be discussed and how the technology can make automated driving safer and more reliable.

"Auto.AI Europe is a platform where we can now highlight our BlincVision MVP to the international market. Our technology has the potential to become a central part of the development of safer autonomous vehicles," says Jonas Renander, Chief Commercial Officer at Terranet.

About Terranet AB (publ)

Terranet's mission is to save lives in urban traffic. We develop groundbreaking technology solutions for advanced driver assistance systems (ADAS) and autonomous vehicles, with a focus on protecting vulnerable road users from injury. Using a unique and patented sensor technology, Terranet's system BlincVision scans the road with laser precision – detecting objects up to ten times faster and with greater accuracy than any other ADAS solution on the market today.

Terranet is headquartered in Lund, Sweden, with additional operations in Gothenburg and Stuttgart – at the heart of the European automotive industry. Since 2017, the company has been listed on Nasdaq First North Premier Growth Market (Nasdaq: TERRNT-B).
