

Invitation to Oncopeptides' investor webcast following positive glioblastoma data

STOCKHOLM — October 9, 2026 — Oncopeptides AB (publ) (Nasdaq Stockholm: ONCO), a biotech company focused on difficult-to-treat cancers, invites investors, analysts, and media to an audiocast and telephone conference on Monday, October 12, 2026, at 08:00 CET.

Earlier today, Oncopeptides [announced positive interim data](#) from the ongoing Window-of-Opportunity study, OP-701 (INSULA), demonstrating that the company's proprietary Peptide Drug Conjugate (PDC) platform successfully penetrates the human blood-brain barrier in patients with glioblastoma.

Investors, financial analysts, and media are invited to participate in a webcast and a subsequent Q&A session on October 12 at 08:00 CET.

The presentation will be hosted by CEO Sofia Heigis and CFO Henrik Bergentoft, who will provide further details on the findings and answer questions. The webcast will be held in English.

Information for participants

If you wish to participate via webcast, please use the link below.

About Oncopeptides

Oncopeptides is a Swedish biotech company focusing on research, development and commercialization of targeted therapies for difficult-to-treat cancers.

The company uses its proprietary Peptide Drug Conjugate platform (PDC) to develop compounds that rapidly and selectively deliver cytotoxic agents into cancer cells. Its flagship drug is currently being commercialized in Europe with partnership agreements for South Korea, the Middle East and Africa and elsewhere.

Oncopeptides is also developing several new compounds based on its two proprietary technology platforms PDC and SPiKE.

The company was founded in 2000, has about 70 employees with operations in Sweden, Germany, Austria, Spain and Italy. Oncopeptides is listed on Nasdaq Stockholm with the ticker ONCO.
