IDEX receives IDEX Access purchase order from channel partner

IDEX Biometrics ASA (OSE: IDEX) has received a purchase order for IDEX Access cards from a channel partner.

The cards will be used for already agreed pilot programmes with several of the partner's customers, as well as for internal use. The pilot programmes will start immediately upon delivery in Q4 2026. The order marks the start of the partner's customer-facing activity with IDEX Access.

About Us
*IDEX Biometrics ASA (OSE: IDEX) develops and makes fingerprint **biometric cards for access control**, digital identity and payment. By authenticating identity through fingerprint biometrics rather than passwords, PINs or traditional credentials, IDEX enables secure and convenient access to physical and digital services. Fingerprint matching happens directly on the card, offline and without transmitting biometric data. Certified by Visa, Mastercard, FIDO2 and EAL6+, and backed by more than 250 patents and over USD 350 million invested in R&D, IDEX serves banks, enterprises and public sector organizations directly and through channel partners worldwide.*
