

# Meet the future of agricultural technology in robotics and artificial intelligence during a demonstration day at Skepparslöv on September 13

**Meet the agricultural robot company Ekobot together with many other actors in the sector during an interesting demo day with a solid program. The program includes, among other things, demonstration runs of field robots, alternative methods for chemical control and much more.**

The event is organized by the Hushållningssällskapet, the Swedish Agricultural Agency and the Swedish University of Agriculture.

Location: Hellegården, Skepparslövsvägen 258, 291 92 Kristianstad, 09.00-17.00 on September 13.

Registration: <https://hushallningssallskapet.se/kalender/horto-faltdag/>

## About Ekobot

Ekobot AB (publ), based in Västerås, conducts business based on the business concept of developing, manufacturing and selling autonomous agricultural robots that enable efficient precision cultivation where weed management takes place completely without or with minimal use of herbicides. The company's vision is to provide the agricultural sector with a long-term sustainable alternative for reducing or completely eliminating chemical spraying in crops of crops for human consumption. The company is listed on the Nasdaq First North Growth Market.

For more information, see Ekobot's website [www.ekobot.se](http://www.ekobot.se)

Augment Partners AB, tel. +46 8 604 22 55, e-mail: [info@augment.se](mailto:info@augment.se) is the Company's Certified Adviser.
