

PRESS RELEASE

11 September 2025 08:00:00 CEST

TERRANET TO EXHIBIT AT DRIVE SWEDEN FORUM 2025

Drive Sweden works to shape the future of mobility and build a more sustainable transport system. On September 18, the program will bring together leading industry players in Gothenburg for the Drive Sweden Forum, where Terranet will be on site as an exhibitor.

Drive Sweden is a national innovation program that unites industry, public stakeholders and academia. Its goal is to develop digital solutions that address the sustainability challenges of the transport system, strengthen Sweden's competitiveness and contribute to the national transport policy objectives. The work is carried out on several fronts: as a knowledge hub, co-financier of innovation projects and through strong international collaborations in Europe and the US.

"The Forum is an important meeting place for everyone who wants to contribute to the future of mobility. Here we want to present how BlincVision creates customer value by increasing traffic safety, saving lives and at the same time supporting the transition to a more sustainable transport system", says Jonas Renander, Chief Commercial Officer at Terranet.

About Terranet AB (publ)

Terranet's mission is to save lives in urban traffic. We develop groundbreaking technology solutions for advanced driver assistance systems (ADAS) and autonomous vehicles, with a focus on protecting vulnerable road users from injury. Using a unique and patented sensor technology, Terranet's system BlincVision scans the road with laser precision – detecting objects up to ten times faster and with greater accuracy than any other ADAS solution on the market today.

Terranet is headquartered in Lund, Sweden, with additional operations in Gothenburg and Stuttgart – at the heart of the European automotive industry. Since 2017, the company has been listed on Nasdaq First North Premier Growth Market (Nasdaq: TERRNT-B).
