

# Konsolidator establishes presence in Germany through partnership with accuratus

Press Release no. 4/2025 (July 25, 2025)

***Konsolidator has entered a strategic partnership with German consultancy firm accuratus business consulting. The partnership marks Konsolidator's re-entry to the German market and presents yet another milestone in the company's 2025-2027 strategy: Resilient Growth – profitable growth through strategic partnerships.***

Konsolidator is expanding its market reach through a new partnership with accuratus, a German advisory firm specializing in group consolidation and corporate reporting. The collaboration will provide Konsolidator with a local, partner-driven presence in Germany, where accuratus' impressive market insight and experience in consolidation solutions will be key drivers. The company was founded in 2016 and combines about 120 years of experience with Consolidation software. After thorough due diligence, they found Konsolidator's solution a right fit for many groups in the German mid-market segment.

*"At accuratus, we only work with a few carefully selected tools in our portfolio that align with our customers' challenges and ways of working. Konsolidator is a strong match for the finance departments we advise: it is cloud-based, fast to implement, and crucially, it is owned by the accounting team itself – not IT. That makes it the right fit for many of our existing and potential mid-sized customers. We're not in the business of pushing software tools – our sole purpose is to solve customer problems. And Konsolidator helps doing that."* **Gunnar Wüstehube, Managing Partner of accuratus.**

accuratus will take on both, an advisory and operational role in the partnership. As an established player in the mid-sized segment of the German market, accuratus is expected to accelerate Konsolidator's entry into Germany and the wider DACH region. At the same time, Konsolidator completes accuratus' solution offering with a dedicated cloud-based tool built specifically for finance departments – independent of IT.

*"accuratus' market position and consolidation expertise make them a strong partner for us. They fit seamlessly into our partner channel strategy – and we now finally have a real presence in Germany, something we lacked in previous market attempts."* **Claus Finderup Grove, CEO of Konsolidator.**

Konsolidator offers a cloud-based tool that automates every step of the consolidation process – from data integration to final reporting. The system integrates with leading financial platforms such as Visma.net, Fortnox, and Microsoft Dynamics 365. Replacing manual Excel processes ensures compliance, transparency, and scalability.

The partnership with accuratus supports Konsolidator's strategic shift toward a partner-driven go-to-market model. This approach is at the core of the company's Resilient Growth strategy for 2025–2027, which aims to scale through collaboration rather than direct sales alone. Particular focus is placed on building a strong partner channel in markets like Germany, Scandinavia, and Iberia.

### **About Us**

Konsolidator A/S is a cloud-based financial consolidation and reporting software provider dedicated to making group CFOs better with fast, reliable, and compliant financial data. Founded by a former CFO and an auditor, the solution eliminates manual processes and supports strategic decision-making. Built to scale with growing organizations, Konsolidator integrates seamlessly into the group's financial ecosystem. Through the Konsolidator Suite, the company offers a financial data warehouse and FP&A capabilities besides their consolidation solution, and partners with other best-in-class tools to support a holistic finance function. Konsolidator was listed on Nasdaq First North Growth Market Denmark in 2019. Ticker Code: KONSOL
