PRESS RELEASE
20 November 2026 08:00:00 CET

FlexQube Receives 0.6 MUSD Order in the United States

FlexQube has received an order worth $590,000, equivalent to approximately SEK 6 million, from an existing customer in the United States. The customer manufactures heating, ventilation, and air conditioning (HVAC) systems. The order is for mechanical cart solutions and builds on the existing relationship between the companies. In October 2025, the same customer ordered products worth more than $740 000 for the same project.

About FlexQube
FlexQube is a technology company headquartered in Gothenburg, Sweden with subsidiaries in USA, Mexico, Germany and England. FlexQube offers solutions for cart-based material handling using a patented modular concept. FlexQube develops and designs customized solutions for both robotic and mechanical cart logistics. Through the own developed and unique automation concept FlexQube can offer robust and self-driving robotic carts. FlexQube has more than 1300 customers in 40 countries with primary markets being North America and Europe.
FlexQube's customers can be found within the manufacturing industry, distribution- and warehousing. We represent some of the most successful companies in the world with a significant share being represented on the Fortune 500 list. These companies exist within automotive, electric vehicle manufacturing, online retail, heavy-duty trucks, industrial automation and retail logistics.
