

Invitation to presentation of Cantargia's interim report January – September 2024

Cantargia (Cantargia AB; Nasdaq Stockholm: CANTA) invites investors, analysts and the press to a presentation of the interim report for January – September 2024 at 3 pm (CET) on November 15, 2024. The report will be published at 07:00 am (CET) the same day.

In conjunction to the report, Cantargia invites investors, analysts, and media to an audiocast with teleconference (in English) on November 15, at 3:00 pm (CET), where Cantargia's CEO, Göran Forsberg, and CFO, Patrik Renblad, will present Cantargia and comment on the report, followed by a Q&A-session.

If you wish to participate via webcast, please use the link below. Via the webcast you will be able to ask written questions. Webcast: <https://ir.financialhearings.com/cantargia-q3-report-2024>.

If you wish to participate via teleconference, please register on the link below. After registration you will be provided phone numbers and a conference ID to access the conference. You can ask questions verbally via the teleconference: <https://conference.financialhearings.com/teleconference?id=50048870>.

The webcast will also be available on demand on Cantargia's corporate website: www.cantargia.com

For further information, please contact

Göran Forsberg, CEO

Telephone: +46 (0)46-275 62 60

E-mail: goran.forsberg@cantargia.com

About Cantargia

Cantargia AB (publ), reg. no. 556791-6019, is a biotechnology company that develops antibody-based treatments for life-threatening diseases and has established a platform based on the protein IL1RAP, involved in a number of cancer forms and inflammatory diseases. Cantargia's oncology program, the antibody nadunolimab (CAN04), is being studied clinically, primarily in combination with chemotherapy with a focus on pancreatic cancer, non-small cell lung cancer and triple-negative breast cancer. Positive data for the combinations indicate stronger efficacy than would be expected from chemotherapy alone. Cantargia's second development program, the antibody CAN10, blocks signaling via IL1RAP in a different manner than nadunolimab and addresses treatment of serious autoimmune/inflammatory diseases, with initial focus on hidradenitis suppurativa and systemic sclerosis.

Cantargia is listed on Nasdaq Stockholm (ticker: CANTA). More information about Cantargia is available at www.cantargia.com.
