

W5 Solutions Secures SEK 10 Million Battery Order from Saab

W5 Solutions business area Power receives an order from Saab worth approximately SEK 10 million for the development and production of advanced batteries as part of an undisclosed defence project. This agreement strengthens W5 Solutions' position as a trusted provider of specialised power solutions for mission-critical applications in the defence sector. Serial deliveries are planned to start from 2026.

The project involves the production of high-performance batteries designed to provide reliable and efficient power in demanding operational environments. The order highlights W5 Solutions' technical expertise in energy storage and power management, ensuring robust and sustainable solutions for defence applications.

"This order is a reflection of our strong collaboration with Saab and our commitment to delivering dependable battery solutions for the defence industry," says Joachim Hammersland, Head of Business Area Power at W5 Solutions. "We are proud to contribute to Saab's project and look forward to ensuring its success."

About W5 Solutions

W5 Solutions' vision is to become the leading global provider of sustainable defence technology. The company develops and delivers cutting-edge solutions that strengthen both its own forces and those of its allies. Their solutions in Training, Power, and Integration are designed with a focus on sustainability and innovation, making them a reliable partner for defence and security agencies worldwide.

Founded in 2018, with a heritage dating back to 1940, W5 Solutions is headquartered in Stockholm.
