**About BICO**
BICO strives towards the vision to enable life-science labs to accelerate the discoveries that change lives. We do this by empowering scientists to work with biology with greater precision and reproducibility, helping them generate trustworthy results that lead to better-informed decisions.
We focus on cell-based applications in biotech and pharma, including the adoption of advanced 3D cell models.

Through our portfolio of leading brands, we bring together instruments, consumables, software, AI, and application expertise, building on our capabilities in the precise handling, culture and analysis of biological material. We call this Precision Biology.

Founded in 2016, BICO has approximately 500 employees and customers in more than 65 countries, with net sales of SEK 1.5 billion in 2025. BICO is headquartered in Gothenburg, Sweden, and listed on Nasdaq Stockholm (BICO).
