

High Flex becomes PCB Assembly Solutions

Mycronic's High Flex division will from today operate under the name PCB Assembly Solutions. The new name reflects the division's growing product offering of advanced production equipment and solutions for the manufacturing of PCB assemblies.

The PCB Assembly Solutions division's offering encompasses a wide range of products and solutions, including jet printing, stencil printing, pick-and-place, 3D inspection, component storage and process software solutions.

"Over the past few years, High Flex has grown its product offering. The new division name, PCB Assembly Solutions, aligns with our product offering, market focus, and long-term growth plans", says Clemens Jargon, Sr VP PCB Assembly Solutions at Mycronic.
