

Truck Manager Reaches 3 Million Preregistrations

Copenhagen, Denmark – Trophy Games proudly announces that our upcoming Truck Manager title has surpassed 3 million preregistrations.

The game is set for release in early October, and the preregistrations greatly surpass the earlier games Train Manager and Energy Manager, which ended their preregistration phases with 500,000 and 300,000, respectively.

While many preregistrations are no guarantee for a game's financial performance, and Trophy Games has a history of releasing games early and developing more features with feedback from the players, the release of Truck Manager is the highlight of Q4. The game is first expected to be completely developed at the end of H1 2025.

Preregister now to join the growing community awaiting Truck Manager's release:
