

Tamtron Group Oyj Company Release 11.5.2023 published on 12.30

Changes in the management team of Tamtron Group Oyj

Tamtron Group Oyj, a forerunner in the field of weighing technology, acquired Lahti Precision Oy in March this year. During the integration process, the operating models of the growing group have been clarified and, as a result, changes have been made to the group's management team.

Tamtron Group Oyj's new executive team consists of CEO **Mikko Keskinen**, CFO **Miika Tuominen** and the new business unit heads Managing Director Industrial Weighing, **Juho Koskinen**, Executive Vice President On-board Weighing, **Markus Ritala** and Executive Vice President Digital Services, **Matti Sipilä**.

- Dividing our operations into three distinct business areas will clarify our internal operating model and improve support towards our subsidiaries and international distributor network. The new executive team represents not only years of experience in different parts of the Tamtron Group, but also strong expertise in developing and managing the operations of international enterprises and technology companies. I believe that the new business model will strongly support the implementation of our growth strategy and I will have an excellent and experienced executive team to assist me, says CEO Mikko Keskinen, to clarify the background to the change.

The new executive team takes effect from today onwards.
