

CLIMEON APPOINTS PATRIK ENGSTRAND KEMI AS NEW EXECUTIVE VICE PRESIDENT, ENERGY & INDUSTRY

PRESS
RELEASE

Climeon has appointed Patrik Engstrand Kemi to the newly established role of Executive Vice President, Energy & Industry. Patrik will assume responsibility for Climeon's business within the energy and industry markets.

Patrik Engstrand Kemi has extensive experience in the sales, project management and financing of energy solutions within various industrial applications and most recently held the position of Head of Industry Segments, Network Solution at Vattenfall Eldistribution. Prior to this, Patrik was Senior Business Developer at Vattenfall Eldistribution and Project Manager at Sweco Energuide. Patrik holds a BSc in Electrical Power Engineering at Luleå University of Technology, Sweden.

Patrik will be part of the company's group management and will take office at the beginning of 2023.

We see great potential for our new product, HeatPower 300, in the energy and industrial markets and therefore it is very satisfying to welcome Patrik to Climeon and to our group management team. Patrik has solid experience of working commercially in the energy sector, has been active in several different markets and has a background that fits well into Climeon's operations, says Lena Sundquist, CEO of Climeon.

I'm very happy for the opportunity to contribute to Climeon's continued journey forward. It's a company that has great potential with its new product generation and that can really contribute to a sustainable energy transition. Together with the rest of the team at Climeon, I hope to be able to help develop the company and further strengthen Climeon's position on the market, says Patrik Engstrand Kemi.

Climeon's increased focus on the energy and industrial markets reflects the potential of sustainable waste heat recovery solutions across multiple sectors. By converting low-temp, industrial waste heat in **power stations** and **industrial processing facilities**, HeatPower 300 will generate clean, carbon-free electricity and create both environmental and economic benefits.

About Climeon AB (publ)

Climeon is a Swedish product company within energy technology. The company's unique technology for thermal power - Heat Power - makes accessible a largely unused energy source and provides sustainable electricity from hot water, around the clock, all year round. Heat Power is a cheap and renewable energy source with the potential to replace much of the energy that today comes from coal, nuclear power, oil and gas. The B share is listed on the Nasdaq First North Premier Growth Market. FNCA Sweden AB is the Certified Adviser.
