

## **Impact Coatings Reports Continuing Business Momentum: Q4 Coating Services Order Intake Exceeds SEK 15 Million**

**Impact Coatings reports that order intake for the group's Coating Services business has reached SEK 15.3 million to date in the fourth quarter. Q4 order intake of SEK 12.8 million was reported in a press release on December 5, and additional orders expected then have been confirmed.**

"The company does not typically report incremental business progress outside of quarterly reporting. However, in conjunction with the ongoing Rights Issue we want to provide investors with maximum transparency. As noted in our December 5 press release, strong growth in Coating Services and ongoing sampling activities with new customers signal robust interest in our solutions and rising volumes at many customers. As a result, we expect our Systems business to regain momentum in 2026 following a weak 2025, which together with continued strong Coating Services sales would strengthen the company's liquidity," said Jonas Nilsson, CEO at Impact Coatings.

To allow investors to further assess the company's progress, the Board of Directors of Impact Coatings has extended the subscription period of the ongoing Rights Issue to December 12.

## About Impact Coatings

Impact Coatings ([www.impactcoatings.com](http://www.impactcoatings.com)) is a global technology leader and full-service provider of coating solutions using PVD technology. The company is an enabler in the energy sector, for off-grid power and hydrogen-related applications, as well in automotive and other industries with emerging PVD applications.

PVD stands for physical vapor deposition – clean processes of applying thin layers of coatings to design surface properties, prolong lifespan, and improve product performance. The company's offer consists of efficient, modular, and flexible PVD systems, and coating services, underpinned by several decades of coating experience and expertise.

The company was founded in 1997 and has since expanded in Europe, Asia and North America. Current production facilities are located in Linköping, Sweden, and in Shanghai, China.

The Impact Coatings share is listed on Nasdaq First North Growth Market (Nasdaq Nordic). The company's Certified Adviser is Redeye AB.
