

## Strong Quarterly Sales Announcement from Newbury Pharmaceuticals

**Newbury Pharmaceuticals AB is pleased to announce higher than expected sales growth in Quarter 4 (June-Aug 2024) reaching sales of approximately 20 MSEK for the period.**

Sales in the Nordics reached approximately 11 MSEK while international sales reached approximately 9 MSEK. The combination of strong sales in both segments is a result of more products having been launched in the Nordics, as well as a large international sales order, announced earlier this year, having been delivered.

*“We are extremely pleased to announce such strong sales uptake which is a combination of a large international sales order and the result of an excellent launch of a new product in the Nordics resulting in a strong uptake. We will continue to pursue such opportunities while we acknowledge that tender sales by nature will fluctuate over time.” says Mr Lars Minor CEO of Newbury.*

The figures are preliminary and have not yet been audited by the company's auditor. The full year-end report will be released on 23rd October 2024.
