

## Impact Coatings Receives IC2000 System Order for Fuel Cells for Delivery to SEKSUN

Impact Coatings has received an order for its new INLINECOATER™ IC2000 coating system for volume production of metal bipolar plates for fuel cells. The system will be delivered to SEKSUN Technology (Suzhou) Co., Ltd., a Chinese manufacturer of high-precision metal parts for the automotive industry. The order has been placed by the distributor NET – Dalian Nuohao Lianheng Electronic Technology Co., Ltd., which has worked as a maintenance and support provider for Impact Coatings in China since 2020. Final delivery of the IC2000 system is planned for 2024. Order value is in the range EUR 2.1-2.5 million. The order and delivery are conditioned an export licence to be granted by the Swedish Inspectorate of Strategic Products (ISP).

### About Impact Coatings

Impact Coatings offers customer-focused coating services, clean coating technologies, and flexible coating systems with focus on hydrogen solutions, autonomous safety functions, and tailored coating solutions for high-end applications.

The company utilizes vacuum deposition methods - sustainable processes to apply thin layers of metal or ceramic coatings that improve performance and durability. Impact Coatings markets coating equipment under the trademark INLINECOATER™ and coating materials under the trademark MAXPHASE™. The company's service models and systems are flexible and scalable to fit the fast-paced markets the company operates within.

The Impact Coatings share is listed on Nasdaq First North Growth Market (Nasdaq Nordic). The company's Certified Adviser is Redeye AB.
