

Press release September 2, 2022

Important contract extension for ProfilGruppen

Autumn is a time when ProfilGruppen, as a subcontractor, negotiates extensions of supply agreements with many of its customers for the coming year. It is now settled that ProfilGruppen has reached an extension with one of its largest customers for next year. The scope of the agreement is expected to amount to approximately SEK 250 million in turnover in 2023.

Fredrik Zöögling, CEO and President of ProfilGruppen, comments:

"The extension of this contract means a continuation of a long and good collaboration with one of our largest customers since many years. The product range has a lower degree of added value, but constitutes a good basic volume for our production in 2023. In the current uncertain economic situation, this feels particularly important."
