
Weekly Edge Case – Vitec Software Group

Markets are good at discarding quality along the way down. Vitec Software Group, the serial acquirer of vertical-market software, has watched its shares grind lower for the better part of a year – and yet, quietly, the tape has begun to turn. That is exactly the moment Market Edge is built to catch: the company's Momentum score has just flipped from Neutral into positive territory, even as its Value score has stayed pinned at the top of the scale throughout the decline.
