

Qliro receives input VAT deduction and recovers previous VAT payments

Qliro has been informed on 20 December 2022 that the company's VAT payments for the financial years 2020 and 2021 have been reassessed and approved by the Swedish Tax Agency. The reassessment means that Qliro will receive SEK 13.2 million for previously made VAT payments for the period 2020-2021, of which SEK 2.9 million was recognized in the company's interim report for the first quarter 2022. The effect from the reassessment will have a positive impact on the company's operating profit for the full-year 2022.

Of the input VAT repaid to Qliro for 2020 and 2021, SEK 2.9 million has been recognized as an item affecting comparability in the company's interim report for the first quarter 2022. The additional SEK 10.3 million will be reported in Qliro's year-end report 2022.

The reassessment will have a positive contribution to Qliro's previously stated ambition to be profitable at EBT level for the full-year 2023.
