Senzime reaffirms its target of reaching positive cash flow within Q4 2026

“We reaffirm our target of reaching positive cash flow within the fourth quarter of 2026, despite seeing challenges in fully achieving the ambitious revenue growth targets we set for the year. Preliminary Q3 figures now indicate double-digit sales growth, further improved gross margins, continued cost control and optimized working capital, all of which are important drivers toward achieving our positive cash flow target,” comments Philip Siberg, CEO of Senzime.

The full Q3 2026 report will be released as scheduled on October 29, 2026.

About Senzime

Senzime is a leading medical device company at the forefront of a changing healthcare market, driven by new clinical guidelines and emerging technologies. Established in 1999, Senzime develops and markets precision-based monitoring systems that improve outcomes, reduce costs, and advance perioperative patient safety. The flagship solution is the TetraGraph® system, proven best-in-class for accurate monitoring of neuromuscular transmission during surgery and used in thousands of operating rooms across the globe. The system helps to secure precise dosing of paralytic drugs and provides enhanced insights to safeguard every patient's journey, from anesthesia to recovery.

Headquartered in Uppsala, Sweden, Senzime is publicly traded on the Nasdaq Stockholm Main Market (SEZI), with cross-trading on the US OTCQX Market (SNZZF), and backed by long-term investors. More information is available at senzime.com.
