

Enersize together with Jernbro qualified in Sysav's major investment in compressed air

Enersize, in partnership with Jernbro Industrial Services, has been qualified as one of four suppliers in Lot 3: Compressors within Sysav's Dynamic Purchasing System (DPS) for new equipment, service, repair, and components. The procurement, reference number 2024-046-03, is part of a larger initiative comprising eleven lots aimed at ensuring access to equipment, components, and services necessary to maintain operations across all of Sysav's production facilities.

Lot 3 covers a wide range of services related to compressed air systems, including energy optimization, audits, feasibility studies, procurement of new equipment, leak detection, and repairs. Through the partnership, Enersize contributes technology and expertise in data-driven compressed air monitoring and energy efficiency, while Jernbro is responsible for the overall delivery.

– Being qualified together with Jernbro as one of four suppliers in this important procurement is a strong testament to our long-standing collaboration. We look forward to contributing to both sustainability and cost efficiency in Sysav's operations, says Fredrik Arrigucci, CEO of Enersize.

Sysav's Dynamic Purchasing System is designed to future-proof its technical infrastructure and enable efficient operations through access to innovative and sustainable solutions.

About Enersize

Enersize develops and provides specialized software, tools, and services for improving energy efficiency in industrial compressed air systems – one of the most energy-intensive processes in manufacturing. The company's technology platform enables detailed monitoring, analysis, and real-time optimization of compressed air systems, with the aim of reducing energy consumption, detecting leaks, and improving operational performance.

Enersize works with a wide range of industrial companies that recognize energy efficiency as a strategic priority – both for improving financial performance and for reducing environmental impact. The solutions are scalable and designed to integrate seamlessly into both existing and new system environments.

The company is listed on Nasdaq Stockholm First North Growth Market under the ticker: ENERS.
