#### ASARINA PHARMA AB, (PUBL)

SECOND HALF-YEAR AND YEAR-END REPORT 2023

## CEO STATEMENT DEAR SHAREHOLDER

Following the positive outcome of the phase IIa study in Tourette Syndrome in April 2023, the second half of 2023 was marked by two key activities.

**FIRSTLY,** together with our clinical and other advisers we made initial preparations for the next clinical study with Sepranolone in Tourette Syndrome (TS). The phase IIb study should be a randomized, double blind study involving 120-130 patients including patients with stable OCD/ADHD comorbidities.

**THE SECOND KEY ACTIVITY** was our efforts to find a partner for the phase IIb study. The capital markets continue to be challenging, especially for small biotech companies such as Asarina trying to raise financing. Therefore, it is critical for the further clinical development of Sepranolone to involve a strong partner with a focus on neurological diseases and with adequate financial resources.

Therefore, together with our financial adviser we have reached out to a substantial number of potential partners. Furthermore, we have participated in several partnering events including BIO Europe in November and the JP Morgan conference in January. At both events, we had meetings with a number of companies.

As of the end of February 2024, we are in dialogue with a select number of companies which have expressed an interest in being involved in the next phase of the development of Sepranolone.

It is not clear when and how each of these dialogues will come to a conclusion, but we aim to have overall clarity regarding our partner options within the first half of the year. It should be noted that there is no certainty that a partnership can be established, let alone that it will be on satisfactory terms.

**IN SUMMARY,** finding a partner is taking time. We are still hopeful that we will eventually find a partner who can bring Sepranolone further in development. In the meantime, we have taken measures to reduce our expenditure to an absolute minimum in order to allow enough time for the partnering process.

**BEST WISHES,** 

**Peter Nordkild,** CEO Asarina Pharma

#### REVENUE

Net income in the second half of 2023 (H2/23) and in the full year 2023 (FY23) amounted to 0.0 (0.0) MSEK.

### **OPERATING EXPENSES**

Asarina reduced its expenditure in H2/23. Total operating expenses amounted to 5.2 (6.7) MSEK and to 14.7 (14.7) MSEK for FY23. External R&D costs dropped to a modest 0.8 (2.8) MSEK and to 6.5 (7.3) MSEK for FY23 reflecting the final costs for the phase IIa study in Tourette Syndrome. Staff costs in H2/2023 increased to 3.1 (2.1) MSEK and to 4.9 (3.9) MSEK in FY23, primarily due to additional partnering activities. General and administration costs declined to 1.0 (1.6) MSEK and to 2.8 (3.1) MSEK for FY23.

### **FINANCIAL ITEMS AND TAX**

Financial items (interest expenses and currency gains/ losses) were broadly unchanged from 2022. Asarina continues to benefit from the Danish tax credit scheme for R&D costs. In November 2023, the Company received 1.6 MSEK (7.0 MSEK) from this scheme. The Company expects to receive approx. 1.5 MSEK in November 2024 related to the R&D costs in 2023.

### **RESULT AND FINANCIAL POSITION**

The net result after tax amounted to -3.4 (-5.1) MSEK in H2/23 and to -12.9 (-13.3) MSEK for FY23. The operating cashflow (incl. the tax credit) in H2/2023 was -2.2 (+0.9) MSEK and – 12.3 (-7.5) MSEK for FY23. In December 2023, the Company received 1.0 MSEK in a convertible loan from Östersjöstiftelsen, its main shareholder. On 31 December 2023, the cash balance amounted to 3.2 (13.6) MSEK. The Company expects that this amount combined with the tax credit due in November 2024 will be sufficient to fund the Company's activities during 2024. On 31 December 2023, shareholders' equity amounted to 1.6 (14.6) MSEK equal to an equity ratio of 26.1 (86.6)%.

### STAFF

As of 31 December 2023, Asarina's operating team comprised 6 part-time staff (employees and consultants), corresponding to 0.5 (1½) full-time employees. The team possesses the key R&D competencies required for a phase II company.

**NOTE** | Amounts in brackets refer to the corresponding period or date in 2022.

## THE ASARINA PHARMA SHARE

As of 31 December 2023, Asarina has issued a total of 22 641 409 shares, which are held by an estimated 3 000 shareholders.

**OWNERSHIP AS OF 31 DECEMBER 2023\*** 

\* Sources: Euroclear, company estimates

As of 31 December 2023, the Company has no active warrant programs for board and staff members.

#### OUTLOOK

The overriding goal for Asarina is to progress its lead compound, Sepranolone, into a phase IIb study in Tourette Syndrome. In view of the Company's very limited liquidity, this requires that the Company is able to enter into a partnership with a pharmaceutical company with the right therapeutic focus and with sufficient financial resources for the phase IIb study. The Company has approached potential partners and is in discussions with a small number of these companies.

As of January 2024, the Company has reduced its operating expenditure to an absolute minimum, by suspending further R&D activities and by significantly reducing headcount. .

There is no certainty that Asarina can close a partnership, let alone that this will be on acceptable terms. The board of directors may therefore decide at the appropriate time to discontinue further partnering efforts and wind down the Company.

#### **EVENTS AFTER THE END OF THE REPORT PERIOD**

No event has happened after 31 December 2023 which could significantly change Asarina's financial position.

## **1. GENERAL INFORMATION**

This interim report covers the parent company Asarina Pharma AB (publ), Corp. Reg. No 556698-0750 and the subsidiaries Asarina Pharma ApS (Denmark) and Asarina Pharma Finans AB.

## 2. ACCOUNTING PRINCIPLES

This interim report has been prepared in accordance with the Swedish Annual Accounts Act and BFNAR 2012:1 (K3).

The accounting principles adopted in this interim report are consistent with those of the 2020 Annual Report and should be read in conjunction with that annual report.

## **3. RISKS AND UNCERTAINTIES**

#### **RISK MANAGEMENT**

The Board of Directors of the company continuously and systematically assess risks in order to identify risks and to take action on them. The internal control environment is comprised of the following five components: control environment, risk assessment, control activities, information and communication and review. Mitigating actions are developed for each identified material risk.

#### **OPERATIONAL RISKS**

At the current stage, Asarina's operations consist of clinical studies in order to demonstrate safety and clinical efficacy of its drug candidates. There is no guarantee that a certain clinical trial will generate the required data to enable Asarina to progress to the subsequent development phase of the product candidate. Clinical trials may be delayed and costs for the trial may exceed budget. Prior to initiating a clinical trial, Asarina conducts a thorough assessment of the duration and the costs of the trial to ensure that it has sufficient funding to complete the trial taking into account possible delays and cost increases.

Asarina develops medical products and is dependent on assessments and decisions by relevant authorities such as the EMA in Europe and the FDA in the USA. Asarina cannot guarantee that it will obtain the regulatory approvals required to continue clinical studies and to obtain market approval. In order to mitigate the regulatory risks, the Company retains regulatory consultants as part of the preparation of new clinical studies.

Asarina focuses on therapeutic areas in which few other companies are active. The company conducts extensive monitoring of potential competitive activity within its IP area, in relevant publications and through participation in biotech conferences.

#### **FINANCIAL RISKS**

At present, Asarina does not generate any income from product sales or licensing of the Company's IP assets and is therefore dependent upon raising new capital from investors. Therefore, Asarina may at any point have discussions with current or potential new investors, which may be interested in injecting new finance into the Company.

Asarina incurs costs mainly in Swedish kronor, Danish kroner and Euro. The Company mitigates its exchange rate risk by allocating its financial reserves according to the expected break-down of expenses between the three currencies.

## **DEFINITION ALTERNATIVE KPIs**

КРІ	DEFINITION	OBJECTIVE
Equity ratio	Calculated on adjusted equity divided by total assets. Adjusted equity comprises of equity including untaxed reserves deducted with deferred tax liabilities.	The company believes the KPI gives investors information regarding the relation between equity and external financing of the company. The company also believes that the KPS gives investors information about the financial stability and long-term ability.
Return on equity	Result for the period divided by average adjusted equity.	The KPI is included to show the return on the owners invested capital.

## **ABOUT ASARINA PHARMA**

We are a Swedish biotech company developing Sepranolone for allopregnanolone-induced stress and compulsivity-driven disorders. Our product pipeline is built on over 40 years of research into allopregnanolone-related neurological disorders. With our new family of GAMSA compounds (GABA-A Modulating Steroid Antagonists) we aim to deliver a new generation of safe, efficacious drugs for neurological conditions from Tourette syndrome to Obsessive Compulsive Disorder that still lack safe, efficacious pharmaceutical treatments.
